III. ACTION ITEM

D. San Joaquin Valley Blueprint Update ** This item has been updated

Summary: COG staff and Blueprint outreach consultants have concluded several months of community outreach in an effort to learn what values the general public considers important regarding future growth. A list of those values is included in your packet as well as a summary of the workshop outcomes. While those attending the January 11th community workshop prioritized the values, those priorities cannot be generalized to the county at large. For this reason our Blueprint process will be addressing all of the values identified as we move forward. These values will be translated into a vision statement with related goals, objectives and measurable outcomes. As we noted from the start, we will request Policy Board approval for each of the three major phases of the project.

The Blueprint Roundtable also recommended approval of the “status quo” growth scenario modeled by CGO staff. The “status quo” scenario (enclosed) depicts what growth will look like in the year 2050 if we continue today’s development pattern. [STECK]

Action: Staff and the Blueprint Roundtable recommend approval to move forward with the values that have been identified through community outreach process **and the “status quo” modeling scenario modeled by COG staff.**

Member Agencies: The cities of Clovis, Coalinga, Firebaugh, Fowler, Fresno, Huron, Kerman, Kingsburg, Mendota, Orange Cove, Parlier, Reedley, San Joaquin, Sanger, Selma & Fresno County

2035 Tulare Street, Suite 201
Fresno, California 93721
