

212 Measure C Carpool/Vanpool Programs

212

OBJECTIVE

To expend Measure C Carpool/Vanpool Program funds to encourage an increase in carpooling and commuter vanpooling in Fresno County.

DISCUSSION

The 2006 Measure C Extension Expenditure Plan, passed by the voters in November 2006, programs funds for carpool and vanpool programs. The programs will be evaluated for funding allocation based upon an open competitive process, and prioritized based on overall cost effectiveness and air quality benefit. The Vanpool Program should provide an equal opportunity for both public and private industry competition, as well as potential public/private partnerships. The Commuter Vanpool Program offer subsidies and reimbursements for new and existing vanpools that originate within Fresno County. The Carpool Incentive Program will offer all Fresno County commuters an opportunity to be chosen to receive a monthly commuting subsidy by carpooling a minimum of two days per pending the completion and submission of the proper paperwork. Each eligible entry will also qualify participants for an annual drawing.

Fresno County Transportation Authority (FCTA), Measure C's implementing agency, charged the Fresno COG with administering, overseeing and implementing the Measure C Carpool/Vanpool Programs due to their staff expertise in Ridesharing.

PREVIOUS WORK COMPLETED

Fresno COG developed implementing guidelines for all three programs that were approved by the Fresno COG and FCTA Boards in February 2007. The programs began implementation in March of 2007 with program information extended to the media and all Fresno COG contacts via email and hard copy letter, as well as posting all of the information and forms on Fresno COG's website and on Valleyrides.com, Fresno COG's ridesharing website.

214 Measure C ADA/Seniors/Paratransit Taxi Scrip Program

214

OBJECTIVE

To implement the Measure C Taxi Scrip Program for enhanced taxicab transportation services for persons 70 years of age and older living in the Fresno County (service area) region.

DISCUSSION

The 2006 Measure C Extension Expenditure Plan, and passed by the voters in November 2006, funds the Taxi Scrip Program as a subsidy program. Taxi Scrip Program participants may purchase five books of scrip monthly at \$5.00 per book (valued at \$20.00), that is a 75% purchase discount per ticket booklet. Each book of scrip includes 20 tickets at a \$1.00 value per ticket. Users may not purchase more than 5 books in any calendar month. Persons who are qualified to use the program, and who have completed and submitted the proper paperwork may purchase Taxi Scrip Booklets at the Fresno COG office and various vendor locations throughout Fresno County. Users are responsible for scheduling, changing and canceling trip reservations. Fresno COG shall be indemnified from and against any and all actions, claims, demands, and liabilities arising out of or in any way connected with Taxi Scrip Program, regardless of any negligent act of Fresno COG.

The program will be evaluated yearly to determine if the program is meeting its intended goals of increasing ridership amongst eligible seniors of the Taxi Scrip Program. The Taxi Scrip program should provide an equal opportunity for potential public and private partnerships.

Fresno County Transportation Authority (FCTA), Measure C's implementing agency, charged the Fresno COG with administering the Measure C Taxi Scrip Program due to their staff expertise in Ridesharing. Therefore, Fresno COG created a new staff position to oversee and implement the program.

PREVIOUS WORK COMPLETED

Fresno COG developed implementing guidelines for the Taxi Scrip Program that was approved by the Fresno COG and FCTA Boards in February 2008. The program began implementation in 2008 with program information extended to the media and all Fresno COG contacts via email and hard copy letter, as well as posting all of the information and forms on Fresno COG's website and on Valleyrides.com, Fresno COG's ridesharing website.

215 Measure C Farmworker Vanpool Program

215

OBJECTIVE

To implement the Measure C Farmworker Vanpool Program, encouraging an increase in farmworker vanpooling participation in Fresno County.

DISCUSSION

The 2006 Measure C Extension Expenditure Plan, passed by the voters in November 2006, provides funds for a farmworker vanpool program. The program will be evaluated for funding allocation based upon an open competitive process, and prioritized based on overall cost effectiveness and air quality benefit. The Farmworker Vanpool Program should provide an equal opportunity for both public and private industry competition, as well as potential public/private partnerships. The Farmworker Vanpool Program offers subsidies and reimbursements for new and existing vanpools that originate within Fresno County.

Fresno County Transportation Authority (FCTA), Measure C's implementing agency, charged the Fresno COG with administering, overseeing, and implementing the Measure C Farmworker Vanpool Program due to COG's staff expertise in Ridesharing.

PREVIOUS WORK COMPLETED

Fresno COG developed implementing guidelines for the Farmworker Vanpool program that was approved by the Fresno COG and FCTA Boards in February 2008. The program began implementation in March of 2008 with program information extended to the media and all Fresno COG contacts via email and hard copy letter, as well as posting all of the information and forms on Fresno COG's website and on Valleyrides.com, Fresno COG's ridesharing website.

OBJECTIVE

To identify transportation improvements proposed for implementation within a short-range period in compliance with Federal and State requirements.

DISCUSSION

State law and Federal regulations require regional transportation planning agencies to prepare Transportation Improvement Programs (TIPs). TIPs are formulated on two levels: State and Federal. No transportation project can receive either Federal or State funds unless it appears in the appropriate TIP.

The Federal TIP is a short-range transportation capital improvement program showing a minimum of four years. It is updated as needed to satisfy Federal requirements, but no less than every four years. The first four years are commitments of funding, and any additional years shown are for informational purposes only. The Federal TIP is a fiscally constrained document. In addition, the Federal TIP must undergo a separate air quality conformity determination to ensure the short-range projects do not slow the implementation of transportation control measures or degrade the air quality. The Federal TIP must conform to the longer-range Regional Transportation Plan and must also incorporate appropriate projects from the Congestion Management Process (CMP). All transportation modes are included in the Federal TIP.

The State Transportation Improvement Program (STIP) is also a short-range transportation capital improvement program. This program experienced significant changes with the passage of SB 45 which encouraged decision making through partnerships; modified the STIP and RTIP cycle, program components, and expenditure priorities; and called for greater regional agency fiscal accountability in the STIP process.

Fresno COG is well aware of the requirements for financial constraint in all transportation plans. The Federal Highway Administration in cooperation with Caltrans established statewide guidelines for preparation of a "Financial Constraint" Element. Significant financial analysis and financial planning have been incorporated within this Element.

Also pursuant to SB 45 statutes, the STIP consists of two broad programs, the Regional Program funded from 75% of new STIP funding and the Interregional Program funded from 25% of new STIP funding. The 75% Regional Program is further subdivided by formula into county shares. County shares are available solely for the projects nominated by regions in their RTIPs. The Caltrans Interregional Transportation Improvement Program (ITIP), will nominate only projects for the Interregional Program. Under restricted circumstances, an RTIP may also recommend a project for funding from the interregional share.

On August 10, 2005, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) was signed into law. SAFETEA-LU authorizes the Federal surface transportation programs for highways, highway safety, and transit for the 5-year period 2005-2009. FTIP development will operate under Federal law, (SAFETEA-LU) guidance. Fresno COG has been responsible for three specific Federal funding programs: the Regional Surface Transportation Program (RSTP); the Congestion Mitigation and Air Quality (CMAQ) Program; and the Transportation Enhancement (TE) Program. Project funding decisions on these three sources are under the COG's control within Federal program guidance. Appropriate prioritization and selection processes for the region have been established, and have been modified as the need has arisen. Special emphasis has been given to selecting transportation projects that emphasize "safety" and "security" concerns through the Regional Bid Process. Fresno COG successfully completed the programming of the first three years of SAFETEA-LU funds during 2004, and the final three years during 2006. This included programming funds

for projects within the RSTP, CMAQ, and TE Programs. The COG had previously programmed all six years worth of member agencies STP "lifeline" dollars that equates to approximately sixty of the allocated total. The COG Policy Board also decided that 30% of the total CMAQ funding would be programmed as "lifeline" dollars and be made available to each member agency based upon a population formula. Member agency CMAQ projects were programmed upon completion of air quality benefit and eligibility assessments.

AB 1012 (Torlakson) was enacted into law during February of 1999 in an effort to speed up delivery of RSTP, CMAQ, and TE Program projects. This legislation established "Program Delivery Advisory" teams representing State, Regional, and Local Transportation Officials. The team's main goal is to assist in the expeditious delivery of transportation projects. One of the main objectives of the project delivery teams was to seek ways in which to integrate environmental reviews more extensively into the transportation planning process. During the last several years, Caltrans Environmental and Local Assistance staff members have met regularly with COG member agency staff to coordinate project environmental review efforts. These meetings have proven beneficial to both Caltrans and member agencies and have helped to speed up project delivery.

The legislation also provided that funds apportioned for programs shall remain available for three Federal fiscal years. The funds are subject to a "use it or lose it" legal requirement. COG in conjunction with its member agencies is responsible for establishing project delivery and obligational authority milestones through preparation of AB 1012 Obligation Plans. These Plans are prepared utilizing a recommended Caltrans format that indicates on a monthly basis the amounts of Federal funds anticipated to be obligated. This process has helped the Fresno Region meet all of its annual obligation goals since 1999.

In 2000, the State Department of Transportation (Caltrans) in cooperation with State Metropolitan Planning Organizations and Regional Transportation Planning Agencies (RTPAs) developed the California Transportation Improvement Program System (CTIPS). CTIPS is a project programming database that among other things, enables secure electronic information sharing between Caltrans and MPOs. CTIPS consolidates three existing Caltrans programming databases into a single system. State and Regional Transportation programmers enter STIP and FTIP data into the system. Basic benefits are that CTIPS allows both Caltrans and MPOs instant access to vital programming information and reduces the volume of hard copy documents by providing for an electronic format. To further streamline the programming process, Fresno COG will be working to develop/implement a project tracking system which would both interface with CTIPS and provide local agencies with greater access to project programming information.

In 2003, a new MPO/Caltrans group was formed—the California Federal Programming Group (CFPG). This group was established to address significant statewide programming issues. The original MPO/Caltrans partnership was expanded under CFPG to include representation from the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Fresno COG staff continues to participate in this group and related subcommittees.

PREVIOUS WORK COMPLETED

1. Maintained an RSTP/CMAQ/TE Appropriation Process.
2. Provided for consistent presentation of Federal TIP by eight Valley Transportation Planning Agencies, derived from a cooperative process.
3. Maintained a tracking system for RSTP, CMAQ, and TE projects to insure Federal funds are either encumbered or reappropriated within the region in a timely manner.
4. Implemented Policies and Procedures for reprogramming surplus RSTP and CMAQ funds.
5. Attended State-wide California Federal Programming Group meetings on a monthly basis and provided help in refining the California Transportation Improvement Program System (CTIPS).
6. Prepared "local" Obligation Plans for RSTP, CMAQ, and TE Programs in order to track regional obligation progress in meeting AB 1012 requirements.

7. Prepared an annual listing of transportation projects for which Federal funds were obligated during the previous fiscal year. The annual report is required by SAFETEA-LU, 23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(4)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5304(g)(4)(B).
8. Continue to work within the FTIP Amendment Procedures reducing the numbers of FTIP Amendment Cycles to a maximum of six cycles per year.
9. Continue to use the Amendment Procedures that authorize the Executive Director to approve Administrative Modifications and specific types of Formal Amendments in lieu of Policy Board approval.
10. Convene the Programming Task Force on an as needed basis to advise COG staff as it strives to develop a programming process that will facilitate member agencies timely delivery of projects.
11. Continue to use adopted Expedited Project Selection Procedures (EPSP). All projects listed in the four year FTIP are now considered selected and may be advanced within the four year period of the California Federal Statewide Transportation Improvement Program (FSTIP).

PRODUCTS

1. Federal Transportation Improvement Program (four years of programming every 2 years).
2. Federal Transportation Improvement Program amendments.
3. Air Quality Conformity Determination for Fresno County.
4. RSTP/CMAQ/TE Appropriation Process - Published Fund Estimates.
5. Tracking Process for the RSTP/CMAQ/TE Program / Project Liaison.
6. Tracking Process for STIP Regional Choice Program.
7. Consistent Presentation of TIPs from all eight Valley Transportation Planning Agencies.
8. Compliance Certifications.
9. Implemented Policies and Procedures for monitoring and reprogramming surplus RSTP and CMAQ funds.
10. Prepared local Obligation Plans for RSTP, CMAQ, and TE Programs in order to track the progress of local project deliveries in meeting AB 1012 requirements.
11. Amended the FTIP on several occasions to allow changes that would reflect current project information for member agency and Caltrans projects.
12. Expedited Project Selection Procedures (EPSP) use to advance or delay eligible project components.
13. Annual Federal Funding Obligation Report.
14. Document Tribal government relations.

TASKS

- 220.01 Review California Transportation Commission's Fund Estimate and Policies, and Federal estimates. Track STIP augmentation as related to programming and delivery of projects.
- 220.02 Participate in the Statewide RTPA group, monitor regional, state and Federal transportation issues.
- 220.03 Review the Caltrans Proposed State TIP, compare with prior State TIPs, and solicit local agency input.
- 220.04 Track and provide for the implementation of new project proposals from member agencies and other eligible public. Ensure coordination of projects evolving through the Congestion Management Program.
- 220.05 Establish project priorities using locally adopted criteria; revise Project Selection Procedures as necessary.
- 220.06 Document implementation progress of prior Regional TIPs.
- 220.07 Work with valley transportation planning agencies to cooperatively and consistently present the RTIP and provide for ITS Architecture maintenance.
- 220.08 Prepare Regional TIPs, (Federal and State) for adoption and submittal to the California Transportation Commission and appropriate Federal agencies.
- 220.09 Process Federal TIP amendments.

- 220.10 Prepare and document project information suitable to making necessary air quality conformity findings.
 220.11 Prepare compliance certifications.
 220.12 Track RSTP/CMAQ/TE project and fund usage, and provide project liaison.
 220.13 Program new transportation projects utilizing future funding.
 220.14 Participate in the California Federal Programming Group (CFPG) Group and related subgroups.
 220.15 Track STIP augmentation as related to programming and delivery of projects.
 220.16 Coordinate, consult and collaborate with all Tribal Governments
 220.17 Coordinate development/implementation of a programming project tracking system.

Objective

To promote coordination, cooperation and communication among local agencies, the Council of Fresno County Governments (Fresno COG), Tribal Governments, federal and state agencies on planning matters. To enable various entities, including Native American Tribes, to participate in and review the regional planning process.

To provide the public with information on activities, meetings, planning documents and reports, and to seek advice from the public on Fresno COG's planning activities.

To provide local agencies and the public the opportunity to review and comment upon federal grant proposals through the local clearinghouse process.

To coordinate the submittal of Caltrans Transportation Planning Grants applications to Caltrans on an annual basis, if needed, from our member agencies and other organizations that qualify for the grant programs but that require the Fresno COG to be the lead applicant.

Discussion

A major function of Fresno COG is to provide a forum for the coordination of decisions of various governmental agencies at the local, Tribal, state, and federal level. This intergovernmental coordination is process rather than product oriented. It is well recognized by Fresno COG that regional transportation planning is an "inclusive" process where both metropolitan as well as non-metropolitan area officials join together in efforts of making planning decisions that will benefit the entire Fresno Region and not just their own jurisdictions. It is also clear that decisions made in the transportation planning process should be supported with the best available information and data. This can be enhanced through technical capacity.

Federal and State governments have entered into a Memorandum of Understanding entitled the National Environmental Policy Act and Clean Water Act Section 404 Integration Process for Surface Transportation Projects in Arizona, California, and Nevada. The MOU encourages MPOs to: (1) formally agree to the NEPA-404 Integration process; (2) to develop and/or utilize existing inventories of waters of the US, special aquatic sites, and associated sensitive plant and wildlife species; (3) consider and avoid environmental impacts to waters of the US, special aquatic sites, and associated sensitive plant and wildlife species during the transportation planning process, and: (4) implement the agency involvement and data needs provisions for the transportation planning stage outlined in the "Level of Data Needs/Threshold for Involvement, NEPA-404 Guidance Paper".

Also included in this work element is part of the Fresno COG public information program, specifically most of the internal staff activity. More detail on public participation has been provided in a separate work element, WE 311.

In accordance with Executive Order 12372, the State has designated Fresno COG as the local clearinghouse for the Fresno County region with the responsibility to review and comment on local applications for federal assistance. The process is designed to provide an opportunity for inter-jurisdictional coordination of federally assisted activities within Fresno County.

Fresno COG supports the State's Environmental Enhancement and Mitigation Program that provides annual funding for transportation related landscaping, public land acquisition, and roadside rest and recreational projects. Fresno COG provides notification of the annual grant application to its members and interested agencies, and upon request reviews and provides comments for preliminary grant applications.

In order to continue to meet Fresno COG's objective of including Native American Tribes in our planning and programming processes by consulting with them and considering their interests when developing our plans and programs, Fresno COG has increased our efforts in outreaching to the Native American Tribes located within Fresno County. Consistent with State and Federal guidelines, Fresno COG has provided ongoing consultation with the Indian Tribes in an effort to strengthen the government-to-government relationship that has been established between Fresno COG and the Tribes. By mailing monthly Fresno COG committees and Policy Board meeting agendas to the Indian Tribes in Fresno County and those tribes located in neighboring counties, staff is able to keep the Indian Tribes informed of the ongoing activities at Fresno COG. In addition, the Tribes receive the following information by telephone, mail, fax, or in-person visits: the Fresno County Transportation Guide, the Regional Directory, Newsletters, workshop invitations, various grant notices and other pertinent information that affects the Tribes. Staff has also invited the Indian Tribes in Fresno County to participate in the Transportation Technical Committee but the Tribes have not responded by sending a representative to attend the meetings.

To strengthen the relationship that exists between the Indian Tribes and Fresno COG, a staff person has been assigned responsibility for Native American government activities so that Indian Tribes will have a consistent point of contact for any questions or concerns. This staff member is responsible for insuring that any pertinent information that affects the Indian Tribes is transmitted to them in a timely manner. This staff member attends ongoing workshops and conferences where Native American outreach training and activities are discussed.

A particular success has been the establishment of a Memorandum of Understanding between Fresno COG and the Big Sandy Rancheria to provide a mutually beneficial protocol for the Tribe and Fresno COG to jointly identify, communicate, and coordinate actions of common concern relating to the Fresno COG's and the Tribe's transportation plans and programs. Fresno COG staff also assisted the Big Sandy Rancheria in updating their Tribal Transportation Plan. For FY 2009/10 Fresno COG will continue the outreach activities that have been established for the Indian Tribes as well as seek new ways to enhance the government-to-government relationship between Fresno COG and the Tribes. In particular, Fresno COG will make every effort to consult and involve the Tribes in development of future plans and programs including, but not limited to the Short and Long-Range Transit Plans and the Federal Transportation Improvement Program.

Fresno COG Staff will continue to provide staff support to the Association for the Beautification of Highway 99. Fresno COG staff will also be participating in the San Joaquin River Crossing Study, however the level of staff involvement is still undetermined as the study is in its earliest stages of formation. Additionally, at the request of the County of Fresno, Fresno COG will be hosting a Task Force focusing on land buffer and greenbelt planning.

- The first order of the Task Force should be to discuss and determine whether, and where, land buffers or transition areas are desirable, and to define the terms of "land buffer" and "transition areas".
- Identify funding and management mechanisms necessary to purchase/hold the identified land-buffer areas in perpetuity for land buffer/greenbelt purposes
- Develop implementation policies for the Board of Supervisors to consider and adopt in order to preserve those identified geographical areas.
- The Task Force should also, with participation of the affected cities, designate subcommittees to identify potential areas between the Fresno/Clovis Metropolitan Area and the cities of Sanger and Kerman, between the cities of Reedley, Parlier and Selma, and between the cities of Fresno, Selma, Fowler, and Kingsburg for land buffer or transition areas to maintain identity between the cities (land buffers can be maintained as agricultural, natural open space and park/trail uses). This discussion will also include appropriate boundaries between Fresno and Clovis.

It is anticipated that the Task Force would function through the FY 2009/10 year with a determination on whether to continue the effort beyond that time frame to be made by the Committee based on overall progress toward the identified goals.

Caltrans invites applications for transportation planning grant programs on an annual basis. The funds are available from the following six grant programs and may be used for a wide range of transportation planning projects:

1. Environmental Justice: Context-Sensitive Planning.
2. Community-Based Transportation Planning.
3. Partnership Planning.
4. Transit Planning
 - a. Statewide Transit Planning Studies.
 - b. Transit Technical Planning Assistance.
 - c. Transit Professional Development.

Four of the six planning grants require the Fresno COG to apply directly to Caltrans for funds with our member agencies and other types of organizations applying as a sub-recipient only.

Previous Work Completed

1. Maintained coordinated planning process involving local, Tribal, state and federal agencies.
2. Monitored and provided analysis to members on the federal transportation bill, SAFETEA-LU.
3. Continued to provide review and comment on major federal and state assistance programs to the Fresno COG Policy Board.
4. Continued to provide support for the Environmental Enhancement and Mitigation Program to member and other interested agencies.
5. Monitored and provided analysis to members on AB 1012.
6. Continued to provide staff support to the Association for Beautification of Highway 99.
7. Continued to provide ongoing consultation with Native American Tribal Governments in Fresno County to enable the Tribes to participate in Fresno COG's planning process and to provide input in the development of Fresno COG's transportation plans and programs.
8. Continued to provide information that may have potential effects on the Tribe's land to the Tribes in a timely manner.
9. Continued to coordinate the submittal of Caltrans Transportation Planning Grants applications to Caltrans on an annual basis, if needed, from our member agencies and other organizations that qualify for the grant programs but that require the Fresno COG to be the lead applicant.

Products

1. Organized files and library of documents.
2. Improved exchange of information and coordination of governmental activities at the public, local, regional, tribal, state and federal levels.
3. Various technical and legislative information assembled, analyzed, reproduced and disseminated to member agencies. Coordinated with other agencies and groups.
4. Planning certification report coordination.
5. Support efforts of the policy, technical and citizens' advisory committees to resolve regional transportation issues.
6. Review commentary and committee participation.
7. Review and comment on proposals for federal assistance and State Plans and Programs.
8. Provide input into State planning efforts.
9. Work relevant to developing required products, e.g., OWPs; RTPs; RTIPs.
10. Coordinate the local clearinghouse review process.

11. Review and comment upon local agency environmental reports and planning studies.
12. Provide staff support to the Association for the Beautification of Highway 99 committee.
13. Document Native American Tribal government-to-government relations in Fresno County.
14. Memorandum of Understanding between the Big Sandy Rancheria and the Fresno COG.
15. Assisted the Big Sandy Rancheria in updating their Tribal Transportation Plan.
16. Monthly legislative reports and bill and policy analysis to local agencies.
17. Submit transportation planning grant applications to Caltrans on annual basis, if needed.

Tasks

- 310.01 Maintain the coordination necessary to execute the OWP objectives, tasks, and schedules.
- 310.02 Carry out Fresno COG's monthly process of dissemination, coordination and involvement, evaluation, and review and comment on federally-assisted program and projects.
- 310.03 Facilitate and aid the review of environmental documents and Direct Federal Development Procedures.
- 310.04 Carry out the review and coordination process for State Plans and Programs as they relate to local and regional plans and as an overall impact on the region.
- 310.05 Execute agreements with other single purpose planning organizations to ensure complete and coordinated review.
- 310.06 Carry out liaison with various federal, state, Tribal, and local agencies.
- 310.07 Participate with and communicate with other regional agencies on planning matters.
- 310.08 Maintain communications with federal and state legislative representatives on matters of importance to Fresno COG.
- 310.09 Carry out Fresno COG committee activities.
- 310.10 Encourage public representation within the Fresno COG committee structure.
- 310.11 Fulfill delegated clearinghouse responsibilities.
- 310.12 Provide that all regional planning be carried out in conformance with the provisions of the NEPA-404 MOU.
- 310.13 Continue coordination, consultation and collaboration with Native American Tribal Governments, either federally recognized or not, in Fresno County both at the staff and Policy Board levels including attempts to negotiate MOUs with those tribes not presently covered by an MOU.
- 310.14 Provide staffing for Measure "C" reauthorization efforts
- 310.15 Provide staffing for San Joaquin River Crossing Study
- 310.16 Provide staffing for the Association for the Beautification of Highway 99.
- 310.17 Coordinate Submittal of Caltrans Transportation Planning Grant applications to Caltrans.

OBJECTIVE

To provide the public with information on activities, meetings, planning documents and reports, and to seek advice from the public on Fresno COG's planning activities. This work element is intended to highlight the COG's desire to encourage more public participation in the transportation planning process, consistent with Federal requirements. This will include public participation in the development stages of plans and programs as well as throughout the adoption process. Fresno COG's newly adopted 2007 Public Participation Plan will be consulted and followed during each phase of plan or program development.

It is Fresno COG's desire that the citizens of Fresno County and its cities assist in delineating values, goals, and objectives of transportation-related services and planning documents. Further, it is Fresno COG's intent that those same citizens, charged with the responsibility of providing feedback on a continuous basis, will participate in the selection of transportation facilities and programs for planning and programming under Fresno COG's authority. Finally, it is the goal of Fresno COG to adequately provide information to and solicit input from historically under-represented and under-served community of Fresno County (i.e. elderly, minority groups, youth, disabled, and lower income people).

DISCUSSION

The Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users – better known as SAFETEA-LU – signed into law in 2005, underscores the need for public involvement and requires metropolitan planning agencies such as Fresno COG to “provide citizens, affected public agencies, representatives of transportation agency employees, private providers of transportation and other interested parties with a reasonable opportunity to comment” on transportation plans and programs.

SAFETEA-LU legislation also requires Fresno COG – when developing the Regional Transportation Plan and the Federal Transportation Improvement Program (FTIP) – to coordinate transportation plans with expected growth, economic development, environmental protection and other related planning activities within our region. Toward this end, Fresno COG's Public Participation Plan outlines key decision points for consulting with affected local, regional, state and federal agencies and Tribal governments including conducting outreach efforts to the traditionally under-represented and under-served populations such as the elderly, disabled, low-income, and minority (i.e. Black, Hispanic, Asian American, American Indian/Alaskan Native, and Pacific Islander) community groups and their leaders. There are other public participation requirements under Title VI of the Civil Rights Act of 1964, Executive Orders 12898 and 13166, the Americans with Disabilities Act and other federal and state laws. For additional information on those requirements and Fresno COG's application of them see the Council of Fresno County Governments 2007 Public Participation Plan.

Much of the information that we prepare in “hard copy” is now also available over the Internet on the Fresno COG website - www.fresnocog.org (see Work Element 312). Fresno COG is continuing to expand the interactive nature of the website, providing the public with an opportunity to comment on projects online. Comments will be received, answered by project staff if requested, and then become a part of the public record. Fresno COG also provides information on and links to public meetings, open houses, documents under review, surveys, public hearings, news releases and the Fresno COG Transportation Guide. Fresno COG's website also contains links to other governmental, transportation and air quality related sites.

Fresno COG also uses its public information program to disseminate pertinent transportation-related information to its member agencies. These partners receive regular mailings and emails of agendas, reports, and materials related to Fresno COG's program areas as applicable.

In summary, Fresno COG is committed to listening to the public and further commits to providing an environment that is both conducive and receptive to public involvement during the planning process.

PREVIOUS WORK COMPLETED

1. A completely revised "Public Participation Plan" manual in compliance with FHWA/FTA recommendations during the 2007 Certification Review.
2. A public participation process that involved speaking engagements; summaries of plans, programs, and technical processes; news releases, newsletters and other informative publications, citizen participants on working committees; participation in Chamber of Commerce committees and events; library circulation of key documents; public notices; public hearings; and the biannual Transportation Forum (a conference hosted by Fresno COG for member jurisdictions and interested public representatives to discuss transportation issues throughout the region).
3. Developed a new Fresno COG Brochure

PRODUCTS

1. COG Outlook (Quarterly Newsletter)
2. Public hearings and public meetings
3. News Releases
4. Public Notices
5. Presentations to local businesses and community groups
6. Annual Report
7. Documented Public Participation Process, with Amendments as necessary
8. Regional Directory
9. Fresno COG Brochure
10. Fresno County Transportation Guide
11. News Conferences
12. Online access to products, minutes and agendas, air quality and census data, reports, work plans, studies, surveys, procedures, links to other related websites, staff contacts and assignments, and Fresno COG's background information
13. Fresno County Transportation Forum
14. Document outreach efforts and meetings with traditionally under-represented and under-served populations and their community leaders.

OBJECTIVE

To create a source providing easy access to government and other information for Fresno County residents, member agencies, and perspective business interests using the latest technology of the World Wide Web. To enhance potential economic development and to increase public knowledge of and involvement in the Council of Fresno County Governments (Fresno COG) activities.

DISCUSSION

COGView is an effort by Fresno COG to make local, regional, state and federal government information more readily available to Fresno County residents. COGView is especially designed to provide our member agencies and the Fresno COG staff with access to the growing amount of transportation information on the internet.

COGView provides on-line demographic and political information on each of our 15 member agencies. In addition, the Internet site provides a calendar of local meetings, announcements, minutes and agendas, posting of official notices, file transfers and E-mail. This information provides a valuable resource to local residents as well as quick reference data for potential investors considering the Fresno County area.

The Fresno Regional Data Center was established to provide assistance to member agencies of Fresno COG, other governmental entities, private business and the public in obtaining, analyzing and using demographic data. The Internet home page increases public access to the information compiled by the Fresno Regional Data Center. (The responsibilities and services of the Fresno Regional Data Center are discussed fully in Work Element 350.)

FY 2005/2006 saw a complete redesign of the COGView website with improvements continually made to the site throughout 2006/2007. In addition to a new look, enhancements were made to greatly improve useability of the site. COGView is now a database driven site which will allow us to meet our goal of providing all Fresno COG documents and information on our website. The site is now fully ADA accessible.

The COGView Internet home page is located at <http://www.fresnocog.org>

PREVIOUS WORK COMPLETED

Development and maintenance of COGView home page on the Internet.
Complete redesign of the COGView website.

PRODUCTS

1. Maintenance of all information currently posted to the website sections.
2. Posting of updated Regional Directory information including demographic information for each member agency with links to their local websites
3. Continuous posting of Fresno COG calendar and member agency calendars.
4. Posting minutes and agendas of upcoming Fresno COG meetings
5. Posting of the Fresno COG OUTLOOK newsletter and other public information materials
6. Updates of the commute option information such as the Fresno County Bikeway Maps, the Fresno County Transportation Guide, and a link to Fresno COG's Valleyrides.com website

7. Significant updates and additions to the following sections: Measure C, Blueprint, One Voice, RTP/FTIP, Documents, Planning, Get Involved and Announcements.

OBJECTIVE

Devise ways to ensure that Fresno County's disadvantaged and minority populations are being included in the transportation planning process.

DISCUSSION

A 1994 Presidential Executive Order directed every Federal Agency to make environmental justice part of its mission by identifying and addressing the effects of all programs, policies, and activities on "minority populations and low-income populations". Recipients of Federal-aid are required to certify and the U.S. Department of Transportation (DOT) must ensure non-discrimination under Title VI of the Civil Rights Act of 1964 and many other laws, regulations and policies.

There are three main environmental justice principles:

1. To avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects, on minority populations and low-income populations.
2. To ensure the full and fair participation by all potentially affected communities in the transportation decision-making process.
3. To prevent the denial of, reduction in, or significant delay in the receipt of benefits by minority and low-income populations.

Metropolitan Planning Organizations (MPOs) serve as the primary forum where State DOTs, Tribal Governments, transit providers, local agencies, and the public develop local transportation plans and programs that address a metropolitan area's needs. MPOs can help local public officials understand how Title VI and environmental justice requirements improve planning and decision making. To certify compliance, MPOs need to:

- Enhance their analytical capabilities to ensure that the long-range transportation plan and the transportation improvement program (TIP) comply with Title VI.
- Identify residential, employment, and transportation patterns of low-income and minority populations (e.g., Black, Hispanic, Asian American, American Indian/Alaskan Native, and Pacific Islander) so that their needs can be identified and addressed, and the benefits and burdens of transportation investments can be fairly distributed.
- Evaluate and –where necessary–improve their basic involvement processes to eliminate participation barriers and engage minority and low-income populations in transportation decision making.

The Environmental Justice plan responds to Federal guidelines by helping agencies:

1. Make better transportation decisions that meet the needs of all people.
2. Design transportation facilities that fit more harmoniously into communities.
3. Enhance the public-involvement process, strengthen community-based partnerships, and provide minority and low-income populations with opportunities to learn about and improve the quality and usefulness of transportation in their lives.
4. Improve data collection, monitoring, and analysis tools that assess the needs of, and analyze the potential impacts on minority and low-income populations.
5. Partner with other public agencies and private programs to leverage transportation-agency resources to achieve a common vision for communities.

6. Avoid disproportionately high and adverse impacts on elderly, disabled, minority and low-income populations, and
7. Minimize and/or mitigate unavoidable impacts by identifying concerns early in the planning phase and providing offsetting initiatives and enhancement measures to benefit affected communities and neighborhoods.

PREVIOUS WORK COMPLETED

- Fresno COG staff has completed the Fresno COG Environmental Justice Report and has submitted it to the Fresno COG Policy Board for adoption.
- Reconvened the Environmental Justice Task Force.

PRODUCTS

1. Fresno COG Environmental Justice Draft Report.
2. Document outreach efforts and meetings with traditionally under-represented and under-served populations and their community leaders.

TASKS

- 313.01 Hold public meetings with the Fresno County Environmental Justice Task Force on an as-needed basis to review how Fresno COG projects impact environmental justice populations identified in the Fresno County Environmental Justice Plan.
- 313.02 Conduct outreach efforts to and provide informational materials in other languages to other community groups.
- 313.03 Implement recommendations outlined in the Fresno COG Environmental Justice Plan.

OBJECTIVE

To provide member governments with specialized technical assistance services. It is intended that the major beneficiaries of this service be the smaller cities with limited technical staff resources.

DISCUSSION

Fresno COG staff provides specialized technical assistance services to the member agencies. These services include fiscal management support, computer applications support, traffic engineering studies, and special planning studies. Internal staff capabilities generally determine the kinds of technical assistance available. Under special circumstances the services of other agencies or consultants may be utilized. For example, Fresno County staff has been utilized to provide traffic counts and traffic studies in several smaller cities.

General assistance is available to any member agency on an informal basis; however, projects requiring commitments of staff time in excess of one half day should be requested in writing and coordinated through the Executive Director. Projects requiring significant commitment of staff resources or utilization of external resources will be screened by staff and reported to the Board prior to initiation. This program is fully funded with local resources.

Fresno COG staff is capable of providing transportation studies, traffic engineering studies, computer mapping and database applications, air quality analysis, geographic information systems support, assistance with financial systems, and assistance with management systems. At the request of the Policy Advisory Committee, Fresno COG staff has provided support monitoring electrical energy deregulation activities and reviewing alternatives for implementing AB 1890. Such activity is an example of how Fresno COG can provide assistance to its local members. Other staff support has included participating in the Fresno Organizations Active in Disaster (FOAD). The mission of FOAD is to prepare for and cope with emergencies and to implement a comprehensive, coordinated plan to mobilize resources to effectively respond to community needs in the event of a major disaster.

PREVIOUS WORK COMPLETED

1. Coordination of consulting study on Trails Planning for the City of Fresno, a project fully reimbursed by the City.
2. Assisted numerous local agencies by participating in oral interview panels for a variety of local agency recruitments.
3. Provided assistance to a variety of local agencies regarding maintenance or establishment of financial systems.
4. Special traffic studies for Selma, Kingsburg, and Orange Cove using County staff.
5. Provided assistance to member agencies in the implementation of Senate Bill 198 (Illness and Injury Prevention Programs).
6. Special model runs for member agency traffic studies.
7. Traffic model runs in support of the Clovis General Plan analysis.
8. Provided staff support to the Energy Deregulation Committee that is seeking appropriate ways in which to respond to AB 1890 (Electrical Energy Deregulation).
9. Participated in the Fresno Organizations Active In Disaster (FOAD).
10. Prepared pollution reduction calculations for member agency CMAQ applications.
11. Special model runs in support of the City of Fresno General Plan analysis.

12. Currently assisting rural communities with establishing videoconferencing platforms in order to help cut the cost, time and air quality detriment associated with frequent travel to required meeting.
13. COG staff is providing additional support to help fund the project through various competitive as well as available, government formula grants.

PRODUCTS

Delivery of special services and development of specific projects as determined by individual members or non-member users.

TASKS

330 Outside Technical Assistance

330

OBJECTIVE

To provide traffic modeling information to outside agencies on a cost reimbursement basis. Also to provide program support functions for microcomputer applications (accounting, utility billing, etc.) to interested parties on a cost reimbursement basis.

DISCUSSION

The Fresno COG Board has an approved policy, which enables Fresno COG to provide reimbursable services to member agencies, associate member agencies, and consultants. These services are generally related to microcomputer applications for traffic modeling and related data base maintenance, and for support on accounting related software previously developed by Fresno COG.

PREVIOUS WORK COMPLETED

1. Traffic modeling reports and maps and related socioeconomic database reports.

PRODUCTS

1. As per service requested.

TASKS

- 330.01 Provide Fresno COG staff support upon written request from public and private agencies.

OVERVIEW

Transportation Demand Management (TDM) includes a wide variety of transportation control measures having a goal of reducing overall motor vehicle usage. In prior years, the predominate effort of this activity has been promotion of ridesharing. Declining state and federal revenue to support this effort in recent years has resulted in a less ambitious Program beginning in 1996-97.

OBJECTIVE

Fresno COG's Valleyrides staff provides Transportation Demand Management (TDM) Services, information and support to individual commuters and employers in Fresno County. These TDM services facilitate higher vehicle occupancy rates and reduce traffic congestion by expanding the traveler's transportation choice in terms of travel method, time, route, costs and the quality and convenience of the travel experience. Federal requirements, through TEA 21, mandate that non-attainment areas shall have Rideshare/TDM programs. Additional transportation control measures are to be explored and implemented when reasonable, but SAFETEA-LU distinguishes the Rideshare component as a mandatory element in order to maintain our air quality conformity status.

DISCUSSION

The Rideshare objectives are designed to reduce traffic congestion, work related vehicle miles of travel and automobile emissions in an effort to improve air quality, conserve energy and prolong the life of existing transportation infrastructures. This is accomplished by encouraging voluntary Rideshare activities, that is, carpooling, vanpooling, buspooling, through matching of Rideshare participants. This is also accomplished by providing information on public transit, alternate work schedules, telecommuting, bicycling or walking as commute options and incentive programs such as preferred parking or Guaranteed Ride Home Programs.

PREVIOUS WORK COMPLETED

Program staff has maintained the Valleyrides Program, providing ride matching services within the Fresno, Kings, Madera and Tulare counties. Staff members have also hosted TDM training workshops for employers, made in-house presentations, offered program support, information and organization and hosted major promotional events. Over the last 11 years CVR staff has worked with over 200 large employer worksites in the four county service region. These employers have received a wide variety of services and/or information. Valleyrides' database program has inspired two separate ride matching databases run internally within large employer worksites. In addition, Valleyrides formed a Commute Options Advisory Committee comprised of government agency and private sector representatives. Valleyrides partnered with California State University Fresno's Parking and Transportation Department to develop an online database matching system called www.Valleyrides.com. That system has been in operation since October 2003.

PRODUCTS

Listed by Task

TASKS

- 340.01 Ridematching
 - a. Provide brochures, applications, referrals and assistance to clients.

- b. Refer applicants to COG's online ridematching website at www.valleyrides.com. Process all incoming ridematch requests for clients who do not have internet access, mailing matchlists to clients with a turnaround time of one hour to two days.
 - c. Cooperate with other ridesharing agencies and employers to facilitate matches.
 - d. Maintain a current and active data base by surveying clients and purging data continually.
- 340.02 Employer Services**
- a. Assist employers by supplying commute option information and services. This includes five Native American Rancherias within Fresno County.
 - b. Refer clients to employer's private "in-house" database ride matching systems as appropriate.
 - c. Maintain involvement in transportation demand management planning issues as they relate to increasing and improving commute alternatives.
 - d. Cooperate with other agencies concerned with congestion management, air pollution, and transportation issues.
- 340.03 Information Services**
- a. Maintain current information on alternative transportation services such as: transit, bikeways, vanpools, buspools, and Park and Ride Lots. Emphasize safety, energy conservation, efficient use of existing transportation facilities and congestion relief and prevention.
 - b. Define, design and execute informational documents. Receive requests and disseminate these documents.
 - c. In conjunction with work element 311/Public Participation, staff will provide information and support for the update of COG's Fresno County Transportation Guide. The guide contains detailed, comprehensive information on all forms of transportation options and services available in Fresno County. The Ridesharing Program will also remain a major purchaser and distributor of the guide.
 - d. In conjunction with work element 311/Public Participation staff will involve the private sector in Transportation Demand Management issues by submitting articles for inclusion in the Council of Fresno County Governments quarterly newsletter, the "COG OUTLOOK."
 - e. Enhance and maintain the www.valleyrides.com website in partnership with CSU Fresno's Transportation and Parking Department.
 - f. Define, design and produce stock information and specific promotional pieces such as brochures, matchlist applications and collateral items.
 - g. Promote bicycle commuting and safety by continuing to update, print and distribute Bikeway Maps of the Fresno County Region.
 - h. Participate in COG's Fresno County Transportation Forum.
- 340.04 Vanpool Services**
- a. Include vanpooling options in Ridesharing presentations.
 - b. Provide vanpool referrals and formation assistance to employers and individual clients or client groups.
- 340.05 Local/Statewide Agency Assistance**
- a. Meet with representatives from city and county agencies, transit districts, bicycle clubs, chambers of commerce and other local associations which may be interested in or affected by the program to coordinate services and information.
 - b. Assist the San Joaquin Valley Air Pollution Control District with "Spare The Air" and other promotional campaigns or grant programs.
 - c. Continue as an active member of the Transportation Technical Advisory Committee (TM-TAC), a group TDM agency representatives from all over California. The Committee works to coordinate and promote TDM efforts on a statewide basis.
- 340.06 Administration**
- a. Provide necessary administrative support and supervision, address problem areas as they arise, and seek information and cooperation with other Ridesharing programs.
 - b. Prepare and maintain program records, OWP TDM Element, budget, invoices and quarterly reports.
- 340.07 TDM Program**
- a. Identify specific capital projects to utilize any available funding

OBJECTIVE

To perform the duties as an Affiliate State Census Data Center and provide assistance to member agencies and the general public in obtaining, analyzing and utilizing census and other demographic data in support of the areawide planning process as well as other information needs. Also to provide continuing support to the internal data needs for traffic simulation modeling requirements including the updating and development of alternative socio-economic scenarios for new projects and land use scenarios from consultants and member agencies, and providing data support for COG-prepared reports and plans.

DISCUSSION

Fresno COG is the Affiliate State Census Data Center for Fresno County. This activity requires staff support to respond to requests for census information from member agencies and the public. There is also a requirement for continuing coordination with the Bureau of the Census relative to public dissemination of census reports, announcements, and maintenance of census geography. As part of this task, Fresno COG has established a home page on the Internet that provides data by Fresno County jurisdiction, as well as links to U.S. Census data and other information for use by member agencies, other governmental entities, and the public. With the continuing release of Census 2000 income, employment, travel, and detailed population and housing data, and data from other sources, a data book will be compiled for Fresno County by Fresno COG. This book will serve as an easier alternative to the often difficult-to-use data extraction websites on the Internet, and will be especially valuable to the non-metropolitan areas of Fresno County which are often neglected by some data sources.

Fresno COG will oversee Fresno County's participation in two 2010 Census preparation programs. The first is the Local Update of Census Addresses (LUCA) program which allows each jurisdiction in Fresno County to review and correct or add to the lists of addresses the U.S. Census Bureau will use to distribute the 2010 Census questionnaires. The second program is the Participant Statistical Areas Program (PSAP) which allows the jurisdictions and public to suggest changes to the County's census tracts, block groups, and census county divisions. It also allows the creation of new census designated places.

An equally important function is the development and maintenance of demographic databases and projections to be used by member agencies in their planning programs and by Fresno COG to support areawide traffic modeling. Using accurate and consistent population forecasts as the basis for all regional planning activities is critical to satisfying conformity requirements in the federal Clean Air Act.

A great deal of staff time will be devoted to the update of the Fresno COG Transportation Model. Since conformity regulations require that the model use the latest planning assumptions, staff must modify the socio-economic data for future years by traffic analysis zone to reflect any recent plan changes.

In addition to general maintenance and support functions, this work element will provide for the production of data for environmental justice analyses to help ensure the health and environmental protection of minority and low-income residents in transportation investments in Fresno County, and the development of data for the Regional Transportation Plan, the long-range vision for Fresno County and the San Joaquin Valley.

PREVIOUS WORK COMPLETED

1. Development of socioeconomic data to support traffic modeling.
2. Assistance to 150 data requests during the last calendar year from governmental agencies, businesses, academic institutions, and the public.

3. Dissemination of Census 2000, State Department of Finance, and other information to member agencies and the public.
4. Hosted Local Update of Census Addresses (LUCA), Block Boundary Suggestion Program (BBSP) and Participant Statistical Area (PSAP) workshops for member agencies in preparation for Fresno County involvement in the 2010 U.S. Census.
5. Development of socio-economic data for Fresno COG-prepared reports and plans.

PRODUCTS

1. Develop socioeconomic information for Fresno COG-prepared reports and plans such as the Measure "C", "One Voice", Regional Housing Needs Allocation, Environmental Justice, Regional Transportation Plan, and Blueprint projects.
2. Develop reports based on Census 2000 data releases.
3. Special census reports in response to member agency and public requests.
4. Affiliate State Census Data Census Reports and other data.
5. Fresno County data book.
6. Develop demographic and socioeconomic information in support of traffic modeling activities

TASKS

- 350.01 Maintain Fresno Regional Data Center.
- 350.02 Prepare Affiliate State Census Data Center reports as required.
- 350.03 Dissemination of Census 2000 data and other special census reports to member agencies.
- 350.04 Provide assistance in obtaining, analyzing and utilizing demographic information to member agencies and the general public upon request.
- 350.05 Prepare Fresno County data book.
- 350.06 Participate in 2010 Census preparation programs including Local Update of Census Addresses (LUCA) and Participant Statistical Areas Program (PSAP).
- 350.07 Develop and provide demographic information needed for other Fresno COG-prepared documents
- 350.08 Develop and provide demographic information to support traffic modeling activities as needed.
- 350.09 Update transportation model future socio-economic data to reflect latest planning assumptions.

Objective

"One Voice" unites Fresno County communities and regional interests in a voluntary and collaborative effort to seek federal and state funds and support annually for projects and legislative priorities of regional significance. All projects and legislative priorities chosen shall contribute to an improved quality of life throughout the Fresno County region.

"Valley Voice" brings together elected officials from each of the eight San Joaquin Valley counties and the Regional Transportation Planning Agencies to advocate for infrastructure projects and legislative priorities that will benefit the San Joaquin Valley.

To provide local agencies with information on federal and state legislation, regulations, guidelines, and policies that effect the Fresno COG and our member agencies.

Discussion

For the past seven years Fresno COG has sponsored a group of member agency elected officials, public administrators and selected staff, to lobby in Washington DC for a number of regionally significant projects that had been identified by Fresno COG member agencies and various stakeholders. This effort, known as the Fresno COG "One Voice" effort, was deemed successful by the Fresno COG Policy Board and will be continued in FY 2009/10. Because of the success with the Washington DC effort, Fresno COG now sponsors a similar effort in Sacramento.

Also, at the Valleywide level, the eight San Joaquin Valley Regional Transportation Planning Agencies have united through the San Joaquin Valley Regional Policy Council to build consensus on projects and legislative priorities in order to advocate at the state and federal level through their own lobbying effort, termed "Valley Voice". This effort takes the Valley COG's and their respective elected officials to Sacramento and Washington D.C. on an annual basis beginning in 2008.

The "One Voice" and "Valley Voice" efforts heighten the COGs' visibility and solidify relationships with both elected and staff representatives in Washington D.C. as well as in Sacramento. Following is a brief history on the efforts.

In 2003, the Council of Fresno County Governments (Fresno COG) decided to undertake a "One Voice" effort seeking federal and/or state funding for projects of broad community-wide benefit within Fresno County. The goal was to assemble a public-private delegation, select prioritized projects, and then visit our Congressional and federal departmental representatives in Washington, D. C. to pursue earmarked funds and grant opportunities. The Fresno COG proposed this as an annual effort and has made a similar effort at the State level in Sacramento.

The message we heard during each of our visits to Washington, D.C. and Sacramento was that we were welcomed and encouraged to return and to continue communications, building upon the broad-based coalition we were assembling. The "One Voice" approach is positively recognized and viewed as a means of assisting our federal representatives to identify, prioritize and shepherd much needed projects through the state and federal budget processes.

Although the "One Voice" effort does not represent the sole advocacy for the Fresno region (Fresno County, individual cities and other public authorities pursue important objectives in Washington and Sacramento as

well), it does provide an opportunity to give special focus to a core group of projects and legislative priorities around which the broadest group within the county can unite.

The "One Voice" advocacy effort has been so successful at the local level that in 2008, Fresno COG embarked on our first advocacy trip to Sacramento along with the other seven Regional Transportation Planning Agencies in the San Joaquin Valley and the San Joaquin Valley Regional Policy Council. This advocacy effort termed, "Valley Voice" brings together elected officials from each of the eight San Joaquin Valley counties (San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tulare, and Kern) and the Executive Directors and staff representing each of the San Joaquin Valley Regional Transportation Planning Agencies. We are pleased to report that we have already experienced success from this initial effort through additional funds to improve our transportation system and combat air quality issues in the San Joaquin Valley. The trip is now an annual event and has been expanded to include a "Valley Voice" trip to Washington D.C.

Fresno COG staff also devotes significant time to on-going legislative activities including, but not limited to, monthly reports detailing pending state and federal legislation in current sessions, bill analysis, regular correspondence to state and federal representatives communicating positions on bills of interest by our Policy Board, and the development of an annual Fresno COG Legislative Platform.

Previous Work Completed

Fresno COG has organized seven annual (2003-2009) "One Voice" lobbying trips to Washington D.C., four annual (2006-2009) "One Voice" lobbying trips to Sacramento and coordinated with other Valley COGs for "Valley Voice" advocacy trips to Sacramento (2008-2009) and Washington D.C. (2009).

Fresno COG created the first annual Legislative Platform in 2008 that outlined the COG's priority legislative and policy issues for advocacy during that year. A new 2009 Fresno COG Legislative Platform was finalized in January of 2009.

Products

1. "One Voice" community advocacy trip to Washington D.C.
2. Appropriations requests and other funding applications following Washington D.C. visit.
3. "One Voice" community advocacy trip to the state capitol in Sacramento.
4. Follow up Sacramento visit with appropriate action initiatives.
5. Plan and carry out with the other SJV COGs "Valley Voice" advocacy trips to Sacramento and Washington D.C.
6. Follow up "Valley Voice" with appropriate action initiatives.
7. Monthly legislative reports, bill analysis, and regular correspondence to state, federal, and local agency representatives on legislation and policy areas of interest to the Fresno COG.
8. 2009 Fresno COG Legislative Platform.

Tasks

- 360.01 Call for Projects for Fresno COG "One Voice " to Washington D.C
- 360.02 Project Selection for Fresno COG "One Voice " to Washington D.C
- 360.03 Delegate briefings for Fresno COG "One Voice " to Washington D.C
- 360.04 Logistics and materials for Fresno COG "One Voice " to Washington D.C
- 360.05 Travel associated with Fresno COG "One Voice " to Washington D.C
- 360.06 Identify legislative platform for Fresno COG "One Voice " to Sacramento
- 360.07 Delegate briefings for Fresno COG "One Voice " to Sacramento
- 360.08 Logistics and materials for Fresno COG "One Voice " to Sacramento

- 360.09 Travel associated with Fresno COG "One Voice " to Sacramento
- 360.10 Identify legislative platform for Valley COG's "Valley Voice " to Sacramento
- 360.11 Delegate briefings for Valley COG's "Valley Voice " to Sacramento
- 360.12 Logistics and materials for Valley COG's "Valley Voice " to Sacramento
- 360.13 Travel associated with Valley COG's "Valley Voice " to Sacramento
- 360.14 Identify legislative platform and projects for Valley COG's "Valley Voice " to Washington D.C.
- 360.15 Delegate briefings for Valley COG's "Valley Voice " to Washington D.C.
- 360.16 Logistics and materials for Valley COG's "Valley Voice to Washington D.C.
- 360.17 Travel associated with Valley COG's "Valley Voice " to Washington D.C.
- 360.18 Continue to produce monthly legislative reports and bill and policy analysis to federal, state, and local representatives and agencies.
- 360.19 Develop 2010 Fresno COG Legislative Platform.

OBJECTIVE

The San Joaquin Valley Regional Blueprint will provide a planning process and products to support long-range planning for the eight MPOs in the region and compliment the work of the San Joaquin Valley Partnership.

DISCUSSION

The San Joaquin Valley (SJV) is a large, diverse, and complex area that contains millions of acres of the world's most fertile farmland, a wealth of natural resources, and large urban environments. The 240-mile long valley stretches from Stockton to Bakersfield and encompasses the eight-county region (Kern, Kings, Tulare, Fresno, Madera, Merced, Stanislaus and San Joaquin).

Today, 3.9 million people live in the San Joaquin Valley. According to the Department of Finance, the Valley's population will grow to over 9.4 million by 2050. How will the region accommodate this anticipated growth? Will it be through expansion of current cities or the development of new ones? How will intra and interregional transportation accommodate commuters, travelers, and goods movement? And how will the balance be maintained between the development of new infrastructure and the need to preserve the region's most important resources?

A look at the current economy of the region points to agriculture as the Valley's economic base. While growth of agriculture has altered some of the natural environmental landscape over time, perhaps even more concerning is the rate at which prime agricultural land is being converted to urban uses. Much of the land conversion is due to the attractiveness of Valley home prices to residents of the Bay Area and Los Angeles regions. However, these new Valley residents often commute back to their place of origin for employment compounding transportation impacts, air quality dynamics, and presenting significant civic engagement challenges.

Highway 99 bears the yeoman's share of commuter traffic, and is also burdened with extraordinary truck traffic transporting goods. Insufficient for current traffic loads, Highway 99 is further impacted by industrial growth and new distribution centers, especially in the Southern San Joaquin Valley.

At both the federal and state levels, policymakers have begun to recognize the extraordinary challenges facing the Valley. Through executive orders issued by two presidents, the Federal Interagency Task Force was formed to help coordinate federal efforts within the region. Following suit, Governor Schwarzenegger signed an executive order creating the *California Partnership for the San Joaquin Valley*, a state effort to direct resources to the region. Through the Blueprint process, regional leaders will work closely with the Partnership to address the significant issues facing the region. Teaming with the San Joaquin Valley Partnership will enable pooling of resources, consistency of vision, and combined momentum to solutions to the forefront.

PREVIOUSLY COMPLETED & ONGOING WORK

- Formation of the eight SJ Valley TPA Directors' Group.
- Formation of the eight SJ Valley Regional Planning Agencies COG Director's Group.
- Formation of the SJV RPA Policy Council.
- Coordination of public transit issues among the Valley transit agencies.
- Executed MOU with the eight SJ Valley TPAs and the District to ensure a comprehensive and cooperative approach to air quality transportation planning.
- Executed new MOU as the SJV Regional Planning Agencies.
- Coordination of SJ Valley TPA sub-committees.

- Continuity of air quality transportation planning approaches with the SJ Valley Air District.
- Adoption of the SJ Valley TCM program.
- Structuring agreements between Fresno/Madera/Kings to accomplish air quality conformity certifications.
- Hosted State of California High Speed Rail Commission and High Speed Rail Authority meetings
- Coordination with the eight SJ Valley TPAs, the SJ Valley Air District, and Caltrans (Districts 6 and 10) to complete a SJ Valley-wide Goods Movement Study (Phases I and II) and the SJV Goods Movement Action Plan.
- Merced Partnership for Integrated Planning.
- Joint grant submittals for the SJV Region (i.e. Improve Mode Choice Forecasting for San Joaquin Valley Blueprint and San Joaquin Express Transit Study).
- Coordinate, consult and collaborate with Tribal Governments.

PRODUCTS

- Blueprint Governing Board Workshop – August 2005
- Blueprint Grant application package (COG MOU, letters of support)– October 2005
- Blueprint Grant Award Notifications – 2006, 2007, 2008 and ?????
- Overall Work Program Amendment for first grant–
- Systematic Development of Informed Consent (SDIC) training
- Establish SJV COG Directors Association Policy Subcommittee
- Establish the Blueprint Coordinating Committee (BCC)
- Institutional Framework for SJ Valley Regional Blueprint Planning
- Community Outreach Plans
- SJ Valley Modeling group established
- SJ Valley Regional Traffic Model Plan Update – Dowling contract,
- GIS Data Inventory and Conversion – In progress, Blueprint Modeling Subcommittee
- GIS Standards October 2006 – In progress, Blueprint Modeling Subcommittee
- Blueprint Vision Summit –June 28, 2006
- Established and Convened Blueprint Regional Advisory Committee (BRAC)
- Blueprint Media Campaign – Ongoing, Blueprint Media Subcommittee
- Stakeholder and committee meetings
- Introductory
- Institutional Framework
- Decision Making Structure
- Process Matrix
- Schedule
- Citizen Participation Plan
- Attended Blueprint Learning Network Workshops (May, 2006; September, 2006; November, 2006; June, 2007; Sept. 2007; November 2007)
- Evaluate “Status Quo”
 - Goals and Objectives
 - Performance Measure
- Alternative Blueprint Scenarios
- Hybrid Alternative Blueprint Scenarios
- Choose Preferred SJV Regional Blueprint Scenario
- Valleywide Blueprint Summit – Jan 2009
- SJV Partnership collaboration on Strategic Action Plan recommendations - *ongoing*
- Blueprint grant administration – *ongoing*
- Document Tribal government-to-government relations.

TASKS

- 410.1 Evaluate Valleywide growth scenario's impact at county level
- 410.2 Make Scenario presentations to local governments and general public
- 410.3 Present implications of preferred scenario at local level
- 410.4 Continue to work with Valleywide local agency planners group
- 410.5 Promote Policy Council's endorsement of Valleywide Scenario to member agencies
- 410.6 Hire consultant to complete SJV Blueprint Final Report and Toolkit for implementation
- 410.7 Translate Blueprint principles into local implementation strategies; develop local commitment
- 410.8 Convene meetings with local officials to discuss funding challenges of local government
- 410.9 Address new greenhouse gas directives (SB 375)
- 410.10 Develop adequate modeling tools for compliance with SB 375
- 410.11 Address the increasing of residential densities
- 410.12 Determine the impact of various densities on the fiscal health of cities and counties in the SJV
- 410.13 Determine the market demand for higher density residential housing projects
- 410.14 Greenprint - incorporate Farmland Conservation Model Program concepts into the Blueprints
- 410.15 Work with Central California EDCs and Partnership for SJV to address jobs/housing issue
- 410.16 Continue Using Adopted Methods to Measure the Effectiveness of the Regional Blueprint Plan
- 410.17 Conduct second SJV Executive Summit for elected officials (with Great Valley Center)
- 410.18 Continue Extensive Public Outreach Efforts
- 410.19 Prepare reports and monitor contractors
- 410.20 Participate in Blueprint related meetings and workshops
- 410.21 Coordinate Tribal consultation with Kern COG's outreach activities.

OBJECTIVE

Provide guidance to the Fresno County Board of Supervisors on how to best facilitate discussion between cities in Fresno County whose growth patterns could be affected by the establishment of land buffers.

DISCUSSION

On April 25, 2006, the Fresno County Board of Supervisors approved structure of an urban land buffer task force and requested the Council of Fresno County Governments (Fresno COG) to administer the task force. Fresno COG was recommended for this purpose to facilitate engagement of all parties in a collaborative effort, especially the cities within Fresno County whose growth patterns would be affected by establishing land buffers.

Specific recommendation for the Land Buffer Task Force includes:

- That the Land Buffer Task Force meet as an independent and self-directed body charged with research, analysis, and making recommendation to Fresno COG, County, and cities on establishment, implementation, and funding of urban buffers.
- Produce draft reports, including alternatives, conclusions, and recommendations
- Receives and considers comments from public, Board of Supervisors, Cities, Fresno COG, and others during a public review period.
- Produce a final report, including policy recommendations.

To implement the recommendations from the Fresno County Board of Supervisors, Fresno COG has assembled a Land Buffer Task Force comprised of different stakeholders from the community including local government, agriculture, the business community and the public. Discussion between the Land Buffer Task Force has been ongoing for some time with the completion of a draft report forthcoming in the future.

PRODUCTS

1. Creation of a land buffer task force
2. Convening meetings with all land use jurisdictions in Fresno County.
3. Preparing briefing reports.
4. Producing a final report with policy recommendations

TASKS

- 411.01 Convene meetings with all land use jurisdictions in Fresno County.
- 411.02 Prepare briefing reports
- 411.03 Prepare a draft report including policy recommendations
- 411.04 Circulate a draft report for public review and comment
- 411.05 Release a final report including policy recommendations.

OBJECTIVE

A regional collaboration of the 4 counties of Fresno, Madera, Tulare and Kings (FMTK) and their 30 incorporated cities, in Mid-San Joaquin Valley, is emerging and coming together with the goal of evaluating and assessing the feasibility of a bold concept for a high-capacity, mass transit-based, multi-modal corridor system. This system is proposed as part of the Regional Blueprint process to efficiently link these cities and counties together into an effective regional metropolitan area that will balance the economy, the environment and equity for the 7.7 million residents projected to live and work in the 4 county region in the next 100 years. This project will deliver a study extending previous work on the four-county Metro Rural Loop multi-modal system to work with all jurisdictions to define specific regional land use policies, recommendations for jurisdictional General Plan updates and zoning district designations, and proposed inter-jurisdictional cooperation policies and protocols that are required to protect and preserve potential four-county (Fresno, Madera, Tulare and Kings) inter-connecting multi-modal corridors and rights-of-ways.

DISCUSSION

The City of Fresno (COF) received \$125,000 seed grant from the California Partnership for the San Joaquin Valley, and matched it with another \$175,000, to study and test the feasibility of corridor preservation for a multimodal metro rural loop corridor system involving Fresno and Madera Counties and their 17 incorporated cities. The first phase study is focusing upon general corridor locations, regional cooperation, farmland and environmental resource preservation, and economic development potential. Fresno COG and the COF have launched a strategic campaign, initiating preliminary studies, disseminating information, and making formal presentations to all 17 elected bodies in the two counties. The response has been overwhelmingly positive and supportive. In addition, COG and the COF have engaged with TCAG and KCAG, and have been encouraged to include Tulare and Kings Counties, and their 13 incorporated cities, in testing and feasibility for the multimodal metro rural loop corridor system. This project is a logical next step to the feasibility study allowed by the California Partnership and will now include these 2 additional counties and their 13 incorporated cities. The high-capacity, mass transit-based, multi-modal corridor system is an innovative regional development approach envisioning a multi-modal, multi-city and multi-county transit oriented, transportation system that will have multi-regional and statewide benefit. It is defined as a connected wheel and spoke system in the Valley that will promote alternative mass transportation modes for commuting and recreation, providing routes for vehicles, trains, public transit systems, walking and bicycling. It is jointly performed by Fresno COG, the MPO and RTPA for the region, Caltrans, the City of Fresno, the RTPAs/MPOs in the counties of Madera, Tulare and Kings, and the incorporated and unincorporated cities within the four counties.

The high-capacity multi-modal corridor system can be used as a prototype for the larger cities in the San Joaquin Valley. It will result in improvement to the state and regional transportation system by setting the stage for connecting the major cities and the smaller communities east and west of the 99 corridor using multi-modal options.

The project will provide greater investment, local and global scale economic development and business opportunities, diversified employment, affordable housing and efficient transportation throughout the regional metropolitan system. It will preserve significant amounts of prime farmland within and without the corridors, preserve wildlife habitat, regional recreation and other environmentally sensitive lands, and conserve natural resources. It will improve public involvement and government-to-government

relations as its partners strategically assess collaboration of multi-jurisdictional support and continuous regional consensus building through the development of transportation network and land use concept.

Completion of this grant's work products sets the stage for next steps that include - seeking inter-jurisdictional consensus, additional funding, and state and federal endorsements to consider and adopt joint powers agreements by delivering a study encapsulating the specific regional land use policies to protect and preserve corridors and right of ways alignment studies; draft joint powers agreements for adopting alignments, developing coordinated land use and zoning, and shared long-term corridor governance; natural resources management and specific agriculture preservation plans, policies and funding strategies by all participating jurisdictions. The next stage will be to adopt the joint power agreements by the participating jurisdictions, the adoption of specific corridor alignments and land use policies in each participating jurisdiction's General plans, and pursue legislation to encourage and preserve the joint powers or regional authorities to increase local regional and state bonding capacity and provide formal priority for infrastructure funding from the State for agreed-upon phases of the land acquisition and system facility construction.

PRODUCTS

Fresno COG, the City of Fresno, Caltrans, and their collaborating partners are aware that to preserve transportation options for the future of this region, we must act quickly. Therefore, this project, working cooperatively with the four counties and their multiple jurisdictions, will deliver the following which are required to protect and preserve potential four-county (Fresno, Madera, Tulare and Kings) inter-connecting multi-modal corridors and rights-of-ways. :

- a. Definitions of specific regional land use policies;
- b. Recommendations for jurisdictional General Plan updates and zoning district designations; and
- c. Proposed inter-jurisdictional cooperation policies and protocols

TASKS

Project Set-Up:

This phase includes initial administrative tasks:

- Task 1.1: Develop Planning Agreement: Fresno COG, the City of Fresno (hereinafter Grantees) and partners from other jurisdictions will develop an operating agreement that describes how the partners will work together, decision-making structure, cost sharing and process of joining or leaving the group
- Task 1.2: Attend Working Group Meetings: Grantees will attend working group meetings to refine and edit the Planning Agreement language as needed
- Task 1.3: Presentation and Training: Grantees will develop and present training modules to highlight and explain key issues such as coordinated land use and zoning, long-term corridor governance, natural resources management, specific agriculture preservation plans, and policies and funding strategies for all participating jurisdictions.

Project Administration and Meetings:

- Task 2.1: Contracting: Grantees will select consultants as needed to develop the technical and specific legal portions of the project and execute the contracts including the services to be performed, the fee and the expenses.
- Task 2.2: Agreements: Grantees will establish and design the role of the various jurisdictions and stakeholders participating in this planning project.
- Task 2.3: Internal Project Meetings: Grantees and partnering jurisdictions will attend group and subgroup meetings to support and update project status.

Task 2.4: Public Presentations: Grantees will have periodic presentations at , Policy Board meetings, Council meetings, board of supervisors meetings, and other local agencies meetings to outreach and encourage other jurisdictions to participate in the regional process

Development of Policies and Funding Strategies for all Participating Jurisdictions:

Task 3.1: Develop preliminary policies and funding strategies: Grantees and consultants will meet with participating jurisdictions to present and develop preliminary funding strategies

Task 3.2: Develop Refined Funding Strategies: Grantees, consultants and participating jurisdictions will draft refined funding strategies

Task 3.3: Cost and Funding Plan: Consultants will develop a funding plan as defined by Grantees and participating Jurisdictions.

Task 3.4: Define Regional Land Use Policies, and Recommend General Plan Updates, Zoning, and Inter-jurisdictional Cooperation Polices and Protocols: Grantees and consultants will work cooperatively with the four counties and their multiple jurisdictions, to deliver the following which are required to protect and preserve potential four-county (Fresno, Madera, Tulare and Kings) inter-connecting multi-modal corridors and rights-of-ways.

Task 4.1: Definitions of Specific Regional Land Use Policies: Grantees, consultants and participating jurisdictions will draft and develop specific regional land use policies to protect and preserve corridors and right of ways alignment studies surrounding the multi-modal system.

Task 4.2: General Plan Updates and Zoning: Develop recommendations for jurisdictional General Plan updates and zoning district designations.

Task 4.3: Cooperation Polices and Protocol: Develop inter-jurisdictional cooperation policies and protocols.

OBJECTIVE

To promote coordination, cooperation and communication among the eight San Joaquin Valley Regional Planning Agencies, including the Council of Fresno County Governments (Fresno COG), and other federal, state, and local governments, related to various regional planning processes.

DISCUSSION

The following sections describe some of the activities related to valley-wide planning coordination.

Coordination of Valley Regional Policy Council

The day-to-day coordination of the Valley Regional Policy Council is guided by the current Chair of the Executive Directors' Committee, which in 2007-2008 is San Joaquin COG's Executive Director Andy Chesley. The 2008-2009 Chair-Elect (current Vice-Chair) is Ted Smalley of the Tulare County Association of Governments (TCAG). The Chair consults with the other Valley Executive Directors to develop the agendas for the Regional Policy Council, and is charged with circulating the agenda and attached materials to the Policy Council. The Chair will be responsible for the minutes (action minutes) of the Policy Council and will also be charged with keeping all pertinent records concerning the Policy Council. However, it is the charge of each Executive Director to aid the Chair in fulfilling these tasks by providing appropriate documents and agenda material timely. At this time the regular meetings will likely be held in Fresno, with the exception of any special events, such as the annual meeting. In fall of 2009, Tony Boren, Executive Director of the Fresno COG, will be the new Vice-Chair of the Executive Director's Committee and will be responsible for organizing and holding a Fall Policy Conference in Fresno with the eight Valley Regional Transportation Planning Agencies and the Valley Regional Policy Council to discuss current topics of interest, discuss the development of the annual Valley Legislative Platforms, and outline plans for the coming year.

Coordination of Executive Directors' Committee

Like the day-to-day coordination of the Policy Council, the Executive Directors' Committee will also be guided by the current Chair of the Executive Directors' Committee. The Chair will consult with the other Valley Executive Directors to develop the agendas for the Executive Directors' meetings, and is charged with circulating the agenda and attached materials. The Chair will be responsible for the minutes (action minutes) and with keeping all pertinent records. However it is the charge of each Executive Director to aid the Chair in fulfilling these tasks by providing appropriate documents and agenda material timely.

Valley Legislative Affairs Committee

The Valley Legislative Affairs Committee (VLAC) has been established at the staff level. They are responsible for tracking legislation and policy which would have a Valley impact, in particular with legislation affecting the duties and responsibilities of the Valley's Regional Transportation Planning Agencies. Not only do they track the bills, but they will also exchange pertinent information that may be crucial towards developing a support/oppose/amend position for each of the agencies. Where legislative positions appear to have a

consensus building within the Valley, the Policy Council should be informed so they may make a unified statement. The intent is to increase the awareness at the State level that the Valley is actively engaged in the process, and deserves being acknowledged as having a unified position. Too often, in looking at a bill analysis, the larger planning agencies will have been consulted and their positions will be posted. The San Joaquin Valley needs to weigh in on the legislative process in order to be more effective. This committee meets on a monthly basis and more often, during busy legislative times.. The VLAC has a Chair and Vice-Chair; Jennifer Dansby from Fresno COG and Elizabeth Wright from Tulare CAG, respectfully. The VLAC has developed a set of By-laws for their committee and has developed Legislative Platforms on an annual basis that include the legislative priorities of the Valley COG's and the Regional Policy Council for each calendar year. The VLAC are also in charge of planning and organizing the annual Valleywide advocacy trips termed, "Valley Voice" to Sacramento and Washington D.C. to lobby for a set of projects and legislative priorities of importance to the San Joaquin Valley. The Chair of the VLAC provides the COG Directors and the Regional Policy Council with ongoing reports throughout the legislative sessions.

Coordination with the California Partnership for the San Joaquin Valley

The Valley's Regional Planning Agencies sought and received a consortia board membership on the Governor appointed Partnership Board - Andy Chesley, San Joaquin COG's Executive Director currently serves in this position. In addition all the Regional Planning Agencies participate in some of the 10 work groups of the Partnership. Our staff participation is most notable in three main work groups: Air Quality, Transportation, and Land Use and Housing. In particular, the Partnership's Strategic Action Plan points to the COG's Blueprint process in both its Transportation and Land Use and Housing strategies. The Partnership has encouraged the formation of a Housing Trust, which will have in its membership an elected official from each of the Valley COGs. The Partnership has provided seed grants to Valley entities, including a Model Farmland Conservation Study (Fresno COG) which is intended to develop a template that may be used throughout the Valley for the purposes of Farmland Conservation/Preservation. A Metro/Rural High Capacity Corridor Loop (City of Fresno) with accompanying land uses is being examined for its potential in at least four counties (Madera, Fresno, Tulare and Kings) and could be expanded in scope.

In addition there is increased interaction between the Partnership and the Regional Policy Council/Valley COGs seen most recently in High Speed Rail, the Trade Corridor Improvement Fund, Air Quality 1B Funds, and other common goals that have fostered a better network of communication and subsequent action to occur. This association has already resulted in higher visibility at the State level, with Valley representatives being offered a "seat at the table" on more issues where previously we were overlooked or excluded from the policy discussions.

Fresno COG's legislative staff member attends monthly meetings with the Partnership's Legislative Advocacy team to discuss legislation and policies with our state representatives that are important to the San Joaquin Valley and further the goals of the Partnership.

Federal Reauthorization

Federal transportation acts establish programs and policies, and provide significant transportation funding to the state, regional and local governments and transit agencies. The current six-year federal transportation act, SAFETEA-LU, expires on September 30, 2009, and needs to be reauthorized by Congress. Efforts are already underway in Congress, USDOT and national organizations to develop the next act. In the past, state agencies and organizations have worked together to influence reauthorization. Various agencies, interest groups and stakeholders have discussed how to collaborate to best position the state in reauthorization deliberations. The Fresno COG Policy Board has adopted the California Department of Transportation and the California

Department of Business, Transportation, and Housing's consensus principles that include statewide principles for the next federal transportation act.

Regional Transportation Plans

The Valley's Regional Planning Agencies have jointly developed a common chapter for each agency's Regional Transportation Plan since the early 1990's, in response to the federal transportation act in effect at the time. In that chapter the issues that are valley-wide are highlighted and discussed. These issues generally include air quality, high speed rail, State Route 99 and the need for additional east-west corridors, Amtrak passenger service, and any other common discussion items.

State Route 99 Coordination

There has been active coordination and consultation with Caltrans (owner/operator of SR 99). Working with the Great Valley Center and Caltrans, a Business Plan and a Master Plan were developed for the SR 99 corridor running through the Valley. It was in major part due to that coordination that the recent Proposition 1B bond included a SR 99 earmark, the only transportation earmark in the bond placed before the voters. Those funds have been awarded to needed projects, but there is an additional \$5 billion plus in projects remaining to be funded. The next objective is to develop the necessary Corridor System Management Plans required by the State.

Fresno COG, along with staff from the other seven Regional Transportation Planning Agencies and Caltrans, have updated the original SR 99 Business Plan Dated 2005. The new Business Plan finalized in 2009 includes an updated list of Valley projects on this important north/south trade corridor, a financial plan on how best to make these projects a reality, and highlights the successes since the original Business Plan. The Business Plan also includes discussion about the economic impacts of designating SR 99 as an Interstate.

Throughout this process is the potential consideration by the State of interstate status for SR 99. At the prompting of various Valley interests the Governor did issue a letter stating, without any financial commitment, that interstate status for SR 99 should be investigated. An economic study evaluating the designation is undergoing evaluation by Caltrans in consultation with Federal Highways Administration, and a report is due back to the Regional Planning Agencies in 2009.

High Speed Rail

Throughout the discussions that have taken place over the past couple of decades, the Valley Regional Planning Agencies have occasionally met jointly or in smaller groups with the California High-Speed Rail Authority overseeing the High Speed Rail effort. Although positions have varied to some degree regarding the exact details of High Speed Rail, including alignment and station location, the Regional Transportation Planning Agencies have cooperated extensively on exchanging information and tracking our various positions. The Regional Policy Council, in cooperation with the California Partnership for the San Joaquin Valley, crafted a joint position on the desired routing through the Valley and has presented and continues to present this information to our Legislators and to the High Speed Rail Authority.

Intercity Rail

As with High Speed Rail, there is a high degree of involvement and exchange of information between our agencies on the Amtrak services provided throughout the Valley. The Valley's Regional Planning Agencies regularly have staff in attendance at the quarterly meetings of the San Joaquin Valley Rail Committee.

511 Information System

In 2000 the Federal Communications Commission (FCC) designated 511 as the single travel information telephone number to be made available to states and local jurisdictions across the country. Consumers can dial this number to access real-time travel information services. In 2006, the Sacramento Area Council of Governments (SACOG) extended an offer to the eight San Joaquin Valley Regional Planning Agencies to join their 511 system. The 511 system would enable anyone within the San Joaquin Valley with a cellular telephone to dial "511" and be routed through the SACOG system to Caltrans Highway Information Network. The San Joaquin Valley is one of the last regions in the Western United States where travelers cannot access road information on their cell phones. In order to participate in the SACOG 511 system in any capacity, SACOG requires a memorandum of understanding between each participating RPA.

Networking

One of the greatest values to our coordinative efforts is the networking between staff at the various Regional Planning Agencies. The Executive Directors have encouraged this networking, recognizing that our enhanced communication poises all of us to have better information on activities going on at the state and federal level. Beyond that staff is able to learn from each other and increase their individual skills, adding value to each of our agencies. In addition, when too many meetings outside of the Valley are scheduled, such coordination (identifying who from the Valley might be in attendance) and subsequent communication allows a better coverage of important topics.

Video Conferencing

The goal of this video teleconferencing project is to provide the Valley Regional Planning Agencies (RPAs) with the technological tools necessary to improve air quality by reducing vehicle trips and vehicle miles traveled (VMT). There are currently between 3 to 6 interagency meetings held every month; the number of these meetings is only expected to increase as the Valley RPAs collaborate on more and more interagency issues. The video teleconferencing project will eliminate the need for most, if not all, of these vehicle trips and reduce thousands of vehicle miles traveled per year. In addition, this project will provide access to the video conferencing equipment to other government, non-profit or other agencies to reduce VMT, as well as provide a forum for distance learning, interviews and professional conferences and seminars.

Administrative and Policy Support

Coordination of the activities in OWP Section 820 requires significant efforts by Regional Planning Agency Executive Directors and staff. Recent efforts, such as the Regional Blueprint Process, indicate that this coordination will continue to be an important part of planning in the future. On September 18, 2008 Fresno

COG's Policy Board authorized the Executive Director to enter into a contract with Barbara Goodwin on behalf of the San Joaquin Valley COGs to serve as the San Joaquin COGs Valley-wide Coordinator.

San Joaquin Valley Goods Movement Activities

The San Joaquin Valley region is one of the four major international trade regions in California. The San Joaquin Valley (SVJ) Goods Movement Study project has completed three phases of goods movement related studies in the valley. The project will provide for improvements to the 8-county San Joaquin Valley truck model and integration with local models. The first phase of the study described the goods movement system and freight flows for the region and generated a list of key goods movement issues and problems. Phase II of the study developed the San Joaquin Valley Truck model tool. In Phase III, the SVJ truck model tested modified scenarios from Phase II and other goods movement scenarios in future years. The completed model product will be used by each of the county Regional Planning Agencies and HQ Modeling and Travel Analysis Branch.

The San Joaquin Valley Regional Planning Agencies recently developed the 2007 *San Joaquin Valley Regional Goods Movement Action Plan*. The purpose of the plan is to provide a knowledge base for the understanding of freight and goods movement issues facing the San Joaquin Valley. The Plan also provides a platform for promoting strategies to improve overall movement of goods in the Valley and identifies goods movement projects to compete for some of the \$2.0 billion Proposition 1B Trade Corridor Improvement Funds.

Valley Air Quality Coordination

Valley Air Quality Coordination has been established to ensure a coordinated and comprehensive approach to transportation and air quality planning among the eight San Joaquin Valley transportation planning agencies and the San Joaquin Valley Air Pollution Control District. The goal is to attain and subsequently maintain federal and state air quality standards. A new aspect of this particular coordination effort will be the issue of greenhouse gases and the need to comply with AB 32 and SB 375 in the future.

Transportation and air quality planning historically have been undertaken through a continuous, cooperative and comprehensive process. The importance of the "three-C" approach has become even more significant given the broader and more complex framework of transportation and air quality planning in the San Joaquin Valley today.

Coordination among the RTPAs, the Air District and other air quality and transportation agencies is proving to be a very effective process.

This coordinated approach also includes such items as submission of Vehicle Miles Traveled forecasts to the Air District to be used in developing emission budgets, updating existing plans, and developing attainment demonstration plans; the joint evaluation of TCMs; working with local transit agencies and Caltrans to enhance transit services; and to work jointly with the Air District on any studies or projects that work to assure that reductions in non-attainment pollutants are achieved and continuing the ongoing public education programs.

The Valley RTPA Directors have included funding in their individual budgets to continue the contract for a valley wide air quality coordinator, responsible to the Directors, to ensure that air quality conformity and related modeling within the Valley is accomplished on a consistent and timely basis. San Joaquin COG is the lead agency for the group on air quality, is responsible for the contract administration

Transportation conformity is required by the federal Clean Air Act and ensures that federal funding is given to transportation activities that are consistent with air quality goals. The Clean Air Act strengthened conformity

requirements for transportation projects, necessitating a more enhanced level of technical analysis of plans, programs, and projects than in the past. Conformity determinations must be conducted at least every three years, or as amendments are made to plans or projects. The federal transportation conformity rule requires interagency consultation on issues that would affect the conformity analysis, such as the underlying assumptions and methodologies used to prepare the analysis. Consultation is generally conducted through the San Joaquin Valley Model Coordinating Committee (MCC). The MCC has been established to provide a coordinated approach to Valley air quality, conformity and transportation modeling issues. Each of the eight Valley Regional Transportation Planning Agencies (RTPAs) and the Air Pollution Control District are represented. In addition, the Federal Highway Administration, Federal Transit Administration, the Environmental Protection Agency, the California Air Resources Board and Caltrans have members on the committee.

PRODUCTS

1. Regularly scheduled Regional Policy Council and Executive Directors' Committee meetings.
2. Regularly scheduled Valley Legislative Affairs Committee meetings.
3. San Joaquin Valley Legislative Platform and advocacy trips to Sacramento and Washington D.C.
4. Continued participation in the California Partnership for the San Joaquin Valley.
5. Work to develop relevant information and documentation for federal transportation legislation reauthorization.
6. Regional Transportation Plan (RTP) valley-wide chapter.
7. Coordination on policies related to regional transportation needs, including SR 99 and High Speed Rail.
8. Planned development of a valley-wide video teleconference system.
9. Coordination on goods movement activities, including efforts related to Proposition 1B funding.
10. Assist with ongoing Air Quality efforts in the San Joaquin Valley; development of the Ozone plan, the PM10 plan, the CO plan, Air District Rules, and Conformity Determinations.
11. Assist the Air District in developing new motor vehicle emission budgets for the Ozone Plan, and for the PM10 Plan.
12. Complete the Reasonably Available Control Measure (RACM) Process for inclusion in the Ozone Plan.
13. Coordinate efforts with the Air District to ensure a comprehensive and cooperative approach to air quality transportation planning.
14. Participate with the other Valley TPAs in the San Joaquin Valley Model Coordinating Committee to address pertinent transportation modeling, air quality modeling, and transportation conformity analysis issues.
15. Comments on proposed air quality plans, rules, regulations and new standards.
16. Continue to monitor, evaluate and propose how AB 32 and SB 375 requirements for a reduction of Greenhouse Gases can reasonably be moved forward for consideration and implementation

TASKS

- | | |
|--------|--|
| 820.01 | Coordinate Regional Policy Council and Executive Directors' Committee meetings, including tracking of minutes and other relevant records. |
| 820.02 | Participate in the Valley Legislative Affairs Committee, including tracking of legislation, development of advocacy positions, development of a Valley Legislative Platform, and advocacy trips to Sacramento and Washington D.C.. |
| 820.03 | Participate in meetings of the California Partnership and continued completion of projects that received seed grant funding. |

- 820.04 Organize and hold a Fall Policy Conference in Fresno with Valley RTPAs and Regional Policy Council.
- 820.05 Work to develop a unified position and outreach related to the reauthorization of SAFETEA-LU
- 820.06 Develop a valley-wide chapter for the Regional Transportation Plans.
- 820.07 Continue to work with Caltrans and other RPAs on issues related to plans, projects, and other needs associated with SR 99.
- 820.08 Develop joint positions and participate in meetings related to High Speed Rail and Intercity Rail.
- 820.09 Coordinate efforts related to the implementation of a 511 information system in the San Joaquin Valley.
- 820.10 Pursue development of a videoconference system to reduce trips and vehicle miles traveled related to valley-wide meetings.
- 820.11 Continue to investigate alternative methods of coordination of valley-wide activities.
- 820.12 Coordination and consultation on efforts to address goods movement plans and projects.
- 820.13 Ensure a coordinated and comprehensive approach to transportation and air quality planning among the eight San Joaquin Valley transportation planning agencies and the San Joaquin Valley Air Pollution Control District.

OBJECTIVE

To effectively administer the planning program and fiscal operations of Fresno COG.

DISCUSSION

Fresno COG administrative functions include managing work activity of Fresno COG and participating member agency staff in performance of work activities identified in the Overall Work Program. This Work Element also includes fiscal management activities related to budget preparation, financial records maintenance and quarterly progress reporting. Legal and auditing services to Fresno COG are also identified under this Work Element.

PREVIOUS WORK COMPLETED

Fresno COG administrative functions, including fiscal management activities, legal and auditing services

PRODUCTS

1. Organized files on personnel management.
2. Current Administrative Manual.
3. Organized financial records.
4. Payroll and warrants.
5. Grant Applications.
6. Quarterly Reports/ Annual Report to Funding Agencies and COG Board.
7. Reimbursement Claims.
8. Formal Policies and Procedures Manual.
9. COG Board and Committee Orientation Package.
10. Monthly staff meetings.
11. Support to the COG Policy Board, the Policy Advisory Committee, and other advisory committees including agendas, minutes, physical arrangements, scheduling, support, and communications.

TASKS

- 910.01 Program Management:
- a. Maintain Administrative Manual.
 - b. Maintain personnel files.
 - c. Meet and confer with staff regarding wages, benefits and working conditions.
 - d. Prepare grants and contracts.
 - e. Coordinate development and administration of OWP and Budget.
 - f. Insure program adherence to applicable Federal and State regulations and directives to include Affirmative Action Plan and DBE objectives.
 - g. Monitor program delivery under the OWP.
 - h. Coordinate annual audits and response to audits.
 - i. Provide legal counsel when necessary.
 - j. Hold monthly internal staff meetings.

910.02 Fiscal Management and Reporting.

- Maintain Unified Accounting System.
- Prepare monthly progress reports and quarterly fiscal reports to be submitted to the COG Board for review and approval, and reimbursement claims.
- Prepare bi-weekly payroll and monthly warrants.

911 Overall Work Program & Budget Development

911

OBJECTIVE

To develop an Overall Work Program (OWP) and Budget consistent with federal and state funding priorities and local agency needs.

DISCUSSION

The OWP is prepared by Fresno COG staff in cooperation with participating local agency staff. The OWP reflects federal/state funding priorities as well as local agency needs. It is reviewed by the Intermodal Planning Group and serves to document planning activities of Fresno COG. The OWP also includes the annual program budget and Fresno COG line item budget.

PREVIOUS WORK COMPLETED

912 Local Transportation Funds Administration

912

OBJECTIVE

To administer the Local Transportation Fund and State Transit Assistance Fund in accordance with the California Transportation Development Act (TDA).

DISCUSSION

Fresno COG, as the Regional Transportation Planning Agency, is responsible for administering both the Local Transportation Fund (LTF) and State Transit Assistance Fund (STA) in Fresno County. These funds, based on a portion of the state sales tax, are generally available to local agencies for bicycle and pedestrian facilities, public transportation, social service transportation, and streets and roads projects. Fresno COG's responsibility is to ensure the funds are apportioned, allocated and expended in accordance with current statutory and administrative code requirements. To facilitate the process, staff assists in claim preparation, monitors related legislative activity, and monitors expenditures via audits.

PRODUCTS

1. Records of LTF and STA apportionments, claim approvals, and allocations. (Continuous)
2. Monthly legislative reports. (Monthly)
3. Fiscal and triennial performance audits.
4. Social Service Transportation Advisory Council Meeting/Public Hearing (re: WE 120)
5. Unmet Transit Needs - Staff Report (re: WE 120)

TASKS

- 912.01 Ensure apportionment, unmet transit need hearings and findings, audits, and other regional transportation planning agency responsibilities are fulfilled.
- 912.02 Monitor related legislative activity.
- 912.03 Assist in claim preparation.
- 912.04 Review claims for conformance with applicable TDA law, the Regional Transportation Plan, and Short Range Transit Plans
- 912.05 Maintain appropriate financial activity records.
- 912.06 Conduct Social Service Transportation Advisory Council meetings/public hearing (re: WE 120).
- 912.07 Update Unmet Transit Needs staff report and conduct public hearing (re: WE 120)
- 912.08 Contract for appropriate fiscal and triennial performance audits.

OBJECTIVE

To provide under contract, administrative and fiscal management services for the Fresno County Rural Transit Agency (FCRTA).

DISCUSSION

The FCRTA was formed, thirty (30) years ago in 1979 as a Joint Powers Agency, responsible for rural transit operations. Its membership is composed of Fresno County and thirteen rural incorporated cities. By the mutual agreement of its members, the FCRTA is administered by its designated General Manager. An annual fiscal year contract providing for such administrative, fiscal and support services has been, and may continue to be, executed between FCRTA and Fresno COG.

PRODUCTS

1. FCRTA resolutions related to transit operations.
2. Organized files and correspondence.
3. Contractual agreements between FCRTA, rural incorporated cities, nonprofit corporations, and other transit providers.
4. Annual Budget.
5. Accounting records, financial statements, and annual audit reports.

TASKS

- 920.01 Participate with Fresno COG in the rural public transportation planning process.
- 920.02 Participate with Fresno COG in monitoring and evaluating rural transit systems.
- 920.03 Participate with Fresno COG in the Social Service Transportation Planning process, as the co-designated (with Fresno County Economic Opportunities Commission) Consolidated Transportation Service Agency for Rural Fresno County.
- 920.04 Coordinate with: Caltrans; Fresno County and each rural incorporated city; further the implementation of the updated Regional Transportation Plan and Rural Short-Range Transit Plan; Measure C Expenditure Plan; and oversee the MOU with the Kings County Association of Governments regarding their continued implementation of the Agricultural Industries Transportation Services Program.
- 920.05 Prepare and administer grants in conjunction with transit service implementation.
- 920.06 Prepare and Adopt Annual Budget.
- 920.07 Negotiate and execute service agreements with rural cities, non-profit corporations, and private transportation providers.
- 920.08 Act as broker for the fleet of public transportation vehicles.
- 920.09 Maintain DBE/MBE/WBE/DVBE files.
- 920.10 Acquire fiscal assets.
- 920.11 Purchase replacement fleet vehicles.
- 920.12 Coordinate with Regional Rideshare Program.
- 920.13 Respond to state/federal air quality requirements.
- 920.14 Respond to Americans with Disabilities Act and Substance Abuse reporting requirements
- 920.15 Maintain records of financial transactions.
- 920.16 Issue warrants for payment of service.
- 920.17 Comply with audit requirements pursuant to the Transportation Development Act.

920.18 Attend meetings as required.

930 Fresno County Transportation Authority Administration

930

OBJECTIVE

To provide personnel support services to the Fresno County Transportation Authority.

DISCUSSION

In November, 1986 the voters of Fresno County approved Measure C, a 1/2% sales tax increase for transportation purposes. This tax was scheduled to expire on July 1, 2007, however, by virtue of a regional consensus oriented process, the voters of Fresno County chose to reauthorize or extend the ½ cent sales tax in November 2006. The reauthorized sales tax is anticipated to raise approximately \$1.7 billion in revenue for transportation purposes. The Fresno County Transportation Authority is responsible for administration and implementation of the sales tax revenue. The Authority and Fresno COG have executed a contract to have Fresno COG provide salary and personnel administration.

TASKS

1. Provide personnel services to the Authority.

OBJECTIVE

To continue the Freeway Service Patrol, in cooperation with Caltrans and the California Highway Patrol, in an effort to remove minor incidents rapidly, thereby reducing congestion, secondary accidents, and vehicle emissions.

DISCUSSION

The Fresno County Freeway Service Patrol (FSP) provides free assistance, including changing flat tires, refilling radiators, taping leaking hoses, providing one gallon of fuel, and removing stalled vehicles from the freeway, to morning and evening peak-hour commuters. The program currently operates along approximately 21.4 miles of SR 41, SR-99, SR-168 and SR-180 in the City of Fresno. Program operation began on September 1, 1993 with the sixteenth year of operation ending on June 30, 2009. The seventeenth year of program operation is from July 1, 2009 to June 30, 2010.

Beginning with the sixth year of the FSP program, the Fresno COG has been responsible for administering the tow contract for the Fresno area FSP. The current three-year contract expires June 30, 2011.

Beginning with the seventh year, the FSP Program was expanded to include additional segments of the metropolitan freeway system, including SR-99 between Ashlan and Jensen Avenues and SR 180 between SR-99 and SR-41. The FSP Program was further expanded during Fiscal Year 2002-2003 to include SR-180 between SR-41 and SR-168 and SR-168 between SR-180 and Ashlan Avenue. However, in order to improve its benefit/cost ratio, the geographic extent of Fresno's FSP Program has been reduced and the hours of operation have been adjusted slightly beginning in Fiscal Year 2005-06. From Monday through Friday, except for holidays, the three FSP beats operate from 7:00 to 9:00 a.m. and from 3:30 to 6:00 p.m.

Work Element 940 provides the necessary Fresno COG financial contribution and staff resources to achieve the activities and objectives of the Freeway Service Patrol. A 25 percent local match contribution is required of the COG by State law in order to continue with the FSP program. The source of this local match contribution is Transportation Development Act funds.

PREVIOUS WORK COMPLETED

1. Joint development of the Fresno County Freeway Service Patrol Memorandum of Understanding among Caltrans, Fresno COG and the California Highway Patrol, and subsequent amendment to the MOU shifting responsibility for tow contract development and administration from Caltrans to the Fresno COG.
2. Joint development of the Fresno County Freeway Service Patrol Cooperative Agreement between Caltrans and the Fresno COG and subsequent annual amendments to the Agreement through Fiscal Year 1997-98.
3. Joint development of the Fresno County Fund Transfer Agreement between Caltrans and the Fresno COG for the Fiscal Year 1998-99 Freeway Service Patrol.
4. Joint development of the Fresno County Program Supplement Agreement between Caltrans and the Fresno COG for the Fiscal Years 1999-00 through 2008-09 Freeway Service Patrol.
5. An application to the SJVUAPCD, through its REMOVE program, for a \$12,900 grant to fund 50 percent of the required local match for fiscal year 1995-96 FSP program operation.
6. Continuous operation of the Freeway Service Patrol since September 1, 1993.

7. Comprehensive evaluations and subsequent Policy Board approvals of FSP Program expansion and contraction beginning in Fiscal Year 1999-00 for the first expansion, in Fiscal Year 2002-03 for the second expansion, and in Fiscal Year 2005-06 for the contraction.
8. Preparation, submittal and approval of applications for federal transportation funds for the additional local match required for the earlier expanded FSP Program.
9. Development and advertisement of a Request for Proposals for towing services for the FSP Program and subsequent award of an FSP contract for the fiscal year periods 1999-00 through 2001-02, 2002-03 through 2004-05, 2005-06 through 2007-08, and 2008-09 through 2010-11.

PRODUCTS

1. Administration of the FSP tow contract and operation of the Program during Fiscal Year 2009-10.
2. Report, prepared with Caltrans and the CHP, evaluating the performance, effectiveness and potential expansion or contraction of the FSP.

TASKS

- 940.01 Coordinate with Caltrans the preparation and execution of a Program Supplement Agreement for the Freeway Service Patrol for Fiscal Year 2009-10.
- 940.02 Participate with Caltrans and the CHP in monitoring, evaluating, and promoting the FSP.
- 940.03 Administer the FSP tow contract for Fiscal Year 2009-10.
- 940.04 Monitor and participate as a member of the Statewide Motorist Aid Committee (formerly the FSP Statewide Oversight Committee) and appropriate subcommittees.

OBJECTIVE

To administer the activities and duties of the Fresno County Abandoned Vehicle Abatement (AVA) Service Authority.

DISCUSSION

Fiscal Year 2009-10 marks the sixth year operation of the Abandoned Vehicle Abatement Program in Fresno County. The Council of Fresno County Governments has been designated the local Abandoned Vehicle Abatement Service Authority to administer the AVA Program and Plan. The program is funded by an assessment of a \$1 additional vehicle registration fee to be used exclusively for the purpose of abandoned vehicle abatement within Fresno County.

PREVIOUS WORK COMPLETED

1. Development of a Resolution to establish a Service Authority for Abandoned Vehicle Abatement pursuant to Section 22710 of the California Vehicle Code, and the subsequent adoption of the Resolution by each of the Council of Fresno County Governments' 16 member agencies.
2. Development of a Fresno County Abandoned Vehicle Service Authority Plan, and the subsequent adoption of the Plan by each of the Council of Fresno County Governments' 16 member agencies.
3. Development of a Joint Powers Agreement to establish membership, voting rights, powers and duties, meetings, staff and other responsibilities, functions and duties of the Service Authority and its Board of Directors, and the subsequent adoption of the Agreement by each of the Council of Fresno County Governments' 16 member agencies.
4. Preparation and compilation of the material noted in items 1 through 3 above along with the abandoned vehicle abatement ordinances of each of the Council of Fresno County Governments' 16 member agencies for submittal to the California Highway Patrol. CHP advised the Office of the State Controller by letter dated October 15, 2003, that they had reviewed the plan and, in accordance with California Vehicle Code Section 22710, determined that the plan complied with established CHP guidelines.
5. Preparation and adoption by the Council of Fresno County Governments on January 29, 2004, of a resolution establishing the Council of Fresno County Governments' Policy Board as the AVA Service Authority Board of Directors.
6. Establishment of reporting forms and procedures for AVA cost accounting and recovery.
7. Conducted workshops (typically semi-annually) with representatives of AVA Service Authority member agencies (AVA Working Group) concerning quarterly reporting requirements, recordkeeping, eligible expenses for reimbursement and other items related to the Fresno County Abandoned Vehicle Abatement Program.

PRODUCTS

1. AVA staff reports, memoranda, letters, notes, and other products.
2. Meetings, at least quarterly, of the AVA Service Authority.

3. Review AVA Quarterly Reports and disperse payments to jurisdictions.
4. Prepare and submit annual report to Office of State Controller.
5. Update AVA Plan as necessary.

TASKS

950.01 Administer AVA Program.

950.02 Prepare agenda materials and conduct meetings of the AVA Working Group and the Fresno County AVA Service Authority.

950.03 Review AVA quarterly reports and claims and disburse funds to claimants.
