

Legislation Summary February 2010

Bill # Author	Topic - Summary	Status/Hearing	Fresno COG Position	Other Position
<u>AB 49</u> Feuer	Water conservation: urban and agricultural water management planning. Existing law requires the Department of Water Resources to convene an independent technical panel to provide information to the department and the Legislature on new demand management measures, technologies, and approaches. "Demand management measures" means those water conservation measures, programs, and incentives that prevent the waste of water and promote the reasonable and efficient use and reuse of available supplies. This bill would require the state to achieve a 20% reduction in urban per capita water use in California by December 31, 2020. The state would be required to make incremental progress towards this goal by reducing per capita water use by at least 10% on or before December 31, 2015. The bill would require each urban retail water supplier to develop urban water use targets and an interim urban water use target, in accordance with specified requirements. The bill would require agricultural water suppliers to implement efficient water management practices. The bill would require the department, in consultation with other state agencies, to develop a single standardized water use reporting form. The bill, with certain exceptions, would	01/27/2010-To inactive file by unanimous consent.		

	condition eligibility for certain water management grants or loans to urban water suppliers, beginning July 1, 2016, and agricultural water suppliers, beginning July 1, 2013, on the implementation of water conservation requirements established by the bill. The bill would repeal on July 1, 2016, an existing requirement that conditions eligibility for certain water management grants or loans to an urban water supplier on the implementation of certain water demand management measures. This bill contains other related provisions and other existing laws.			
AB 153 Ma	High-Speed Rail Authority. Existing law creates the High-Speed Rail Authority with specified powers and duties relating to the development and implementation of an intercity high-speed rail system. Existing law authorizes the authority to prepare a plan for the construction and operation of that system and to enter into contracts, acquire rights-of-way through purchase or eminent domain, and take other actions, subject to specified contingencies. Under existing law, a public entity may not commence an eminent domain proceeding until its governing body has adopted a resolution of necessity that meets certain requirements. Existing law generally prohibits a state agency from employing legal counsel other than the Attorney General unless there is a specific statute authorizing that employment. This bill would eliminate those contingencies to the exercise of the authority's authority and would specify that the authority constitutes a "governing body" for the purpose of adopting a resolution of necessity. The bill would authorize the authority to employ its own legal staff or contract with other state agencies for legal services, or both. This bill contains other related provisions and other	07/02/2009-In committee: Set, first hearing. Hearing canceled at the request of author.		

	existing laws.			
<u>AB 177</u> Ruskin	Public contracts: small businesses and disabled veteran business enterprises. Existing law provides for various programs to encourage the participation of small businesses and disabled veteran business enterprises, as certified by the Department of General Services, in state agency contracts. Existing law revokes, for a specified period, the small business or microbusiness certification of a business that obtained the classification as a small business or microbusiness by reason of having furnished incorrect supporting information or withholding relevant information, and suspends that business from transacting with the state, as specified. Existing law extends the period of revocation and suspension for additional or subsequent violations. This bill would increase the period of certification revocation and suspension for such violations, and additionally require the revocation of the business' seller's permit for additional or subsequent violations. This bill contains other related provisions and other existing laws.	01/25/2010-In Senate. Read first time. To Com. on RLS. for assignment.		
<u>AB 266</u> Carter	Transportation needs assessment. Existing law creates the California Transportation Commission, with various duties and responsibilities relative to the programming and allocation of funds for transportation capital projects. Existing law requires the commission to submit, by December 15 of each year, an annual report to the Legislature summarizing the commission's prior-year decisions in allocating transportation capital funds and identifying timely and relevant transportation issues facing the state. This bill would require the commission, on an every-5-year basis, to develop an assessment of the unfunded costs of programmed state projects and federally earmarked	06/11/2009-Referred to Com. on RLS.		

	projects in the state, as well as an assessment of available funding for transportation purposes and unmet transportation needs on a statewide basis. The bill would require the Department of Transportation to assist in conducting the assessment. The bill would require the commission to submit the first assessment report to the Legislature by March 1, 2011.			
<u>AB 304</u> Price	Child Care and Development Services Act: alternative payment programs. The Child Care and Development Services Act, administered by the State Department of Education, provides that children up to 13 years of age are eligible, with certain requirements, for child care and development services. The act requires the department to contract with local contracting agencies to provide for alternative payment programs , and authorizes alternative payments to be made for services provided in licensed centers and family day care homes for care provided in the child's home, and for other types of care that conform to applicable law. The act prohibits payments made by alternative payment programs from exceeding the applicable market rate ceiling, but allows alternative payment programs to expend more than the standard reimbursement rate for a particular child, provided that the aggregate payments for services purchased by the agency during the contract year do not exceed the assigned reimbursable amount as established by the contract for the year. This bill would delete that authority to expend more than the standard reimbursement rate for a particular child. The bill, in addition, would require an alternative payment program to establish a program of electronic banking for payments made to licensed and license-exempt family day care homes, and to implement that program no later	01/31/2010-Failed Deadline pursuant to Rule 61(b)(3). (Last location was 2 YEAR on 6/2/2009)		

	than one year after the bill takes effect.			
<u>AB 315</u> De Leon	Child care and development services: alternative payment programs. The Child Care and Development Services Act, administered by the State Department of Education, requires the Superintendent of Public Instruction to administer child care and development programs that offer a full range of services for eligible children from infancy to 13 years of age. The act authorizes funds appropriated for purposes of the act to be used for alternative payment programs to allow for maximum parental choice. This bill would require the department to consider developing guidelines for alternative payment programs on specified matters, including timeliness of payment to child care providers.	06/18/2009-Referred to Com. on RLS.		
<u>AB 726</u> Nielsen	Transportation capital improvement projects. Existing law generally provides for allocation of transportation capital improvement funds pursuant to the State Transportation Improvement Program process. Existing law provides for 75% of funds available for transportation capital improvement projects to be made available for regional projects, and 25% for interregional projects. Existing law describes the types of projects that may be funded with the regional share of funds, and includes local road projects as a category of eligible projects. This bill would state that local road rehabilitation projects are eligible for these funds.	06/16/2009-In committee: Set, first hearing. Hearing canceled at the request of author.		
<u>AB 798</u> Nava	California Transportation Financing Authority: toll facilities. Existing law generally provides for programming and allocation of transportation capital improvement funds pursuant to the state transportation improvement program process administered by the California	10/11/2009-Chaptered by the Secretary of State, Chapter Number 474, Statutes of 2009		

	Transportation Commission. Existing law authorizes the development of toll road projects under certain conditions. Existing law authorizes the commission and the Department of Transportation to operate and manage the Transportation Finance Bank to make loans for transportation projects. Existing law creates the California Infrastructure and Economic Development Bank to assist in the financing of various public infrastructure projects. Existing law authorizes the state to issue tax-exempt revenue anticipation notes backed by federal transportation appropriations. This bill would create the California Transportation Financing Authority with specified powers and duties relative to issuance of bonds to fund transportation projects to be backed, in whole or in part, by various revenue streams of transportation funds, and toll revenues under certain conditions, in order to increase the construction of new capacity or improvements for the state transportation system consistent with specified goals. The bill would set forth the requirements for a project sponsor to obtain bond funding from the authority, would allow the authority to approve the imposition and collection of tolls on a proposed project under certain conditions, and would require the authority to report to the California Transportation Commission annually beginning June 30, 2011. The bill would create the California Transportation Financing Authority Fund, which would be continuously appropriated for these purposes. The bill would enact other related provisions. This bill contains other related provisions and other existing laws.			
AB 932 Torlakson	Child care and development services: facilities. Existing law establishes the Child Care Facilities Revolving Fund in the State Treasury to provide funding for the renovation, repair, improvement, or purchase of	01/31/2010-Failed Deadline pursuant to Rule 61(b)(3). (Last location was 2 YEAR on 6/2/2009)		

	child care facilities for lease to school districts and contracting agencies that provide child care and development services pursuant to the Child Care and Development Services Act. This bill would instead specify that the fund be used to make loans to eligible borrowers for the purchase, development, construction, expansion, renovation, repair, or improvement of licensed child care. The bill would authorize the Superintendent of Public Instruction to transfer federal funds appropriated for child care facilities into the fund. This bill contains other related provisions and other existing laws.			
AB 987 Ma	Transit village development districts: infrastructure financing. Existing law, the Transit Village Development Planning Act of 1994, authorizes a city or county to create a transit village plan for a transit village development district. A transit village plan is required to include all land within not less than 1/4 mile of the exterior boundary of the parcel on which is located a transit station, as defined. Existing law separately authorizes a legislative body, as defined, to create an infrastructure financing district, adopt an infrastructure financing plan, and issue bonds, for which only the district is liable, to finance specified public facilities, upon voter approval. This bill would eliminate the requirement of voter approval for the formation of an infrastructure financing district, adoption of an infrastructure financing plan, and an issuance of bonds for the purpose of implementing a transit village plan adopted pursuant to the Transit Village Development Planning Act of 1994. The bill would require a transit village plan financed by these bonds to include demonstrable public benefits regarding housing and provisions for the dedicated use of bond proceeds to	01/28/2010-In Senate. Read first time. To Com. on RLS. for assignment.		

	finance certain types of housing. This bill would recast the area included in a transit village plan to include all land within not more than 1/2 mile of the main entrance of a transit station. The bill also would make technical, nonsubstantive changes.			
<u>AB 1076</u> Jones	Infill Incentive Grant Program of 2007. Existing law establishes the Infill Incentive Grant Program of 2007 to be administered by the Department of Housing and Community Development and, upon appropriation by the Legislature, requires the department to establish and administer a competitive grant program to allocate funds to selected capital improvement projects that are an integral part of, or necessary to facilitate the development of, a qualifying infill project or qualifying infill area, as defined. Existing law requires the department to adopt guidelines for the operation of the grant program, and requires the guidelines to include provisions for the reversion of grant awards that are not encumbered within 4 years of the fiscal year in which an award was made. This bill would require the department, with respect to grant awards affected by the requirement that a redevelopment agency remit a specified amount of funds, to include guidelines, among the adopted guidelines, for the reversion of grant awards that are not encumbered within a reasonable period of time, to be determined by the department. This bill contains other related provisions and other existing laws.	11/02/2009-Withdrawn from committee. Re-referred to Com. on RLS.	Watch	
<u>AB 1135</u> Skinner	Vehicles: registration renewal. Existing law requires an owner of a vehicle to submit an application for renewal of a vehicle registration to the Department of Motor Vehicles no later than midnight of the expiration date. This bill would require the owner of a vehicle, upon application for renewal of a vehicle	01/31/2010-Failed Deadline pursuant to Rule 61(b)(3). (Last location was 2 YEAR on 6/2/2009)		

	registration, to report the current odometer reading of the vehicle. The bill would require that information, except for the name and address of the vehicle owner and the vehicle license plate number , to be public information. The bill would also require the department to group the information into census blocks, create a database that can compile census block data and sort it by block group, census tract, and city and county, and post the data on the department's Internet Web site.			
AB 1195 Brownley	Child care and development programs: advisory committee. The Child Care and Development Services Act, administered by the State Department of Education, requires the Superintendent of Public Instruction to administer child care and development programs, which offer a full range of services for children from infancy to 13 years of age who are eligible for child care and developmental services. Existing law requires the Governor to appoint an advisory committee to assist the State Department of Education in developing a state plan for child development programs pursuant to that act. This bill would require the advisory committee to assist the department in the development of a plan to implement any new federal grant funds made available after March 1, 2009, for child care and development programs and early childhood education.	01/22/2010-Failed Deadline pursuant to Rule 61(b)(2). (Last location was 2 YEAR on 6/2/2009)		
AB 1375 Galgiani	High-speed rail. Existing law, the California High-Speed Train Act, creates the High-Speed Rail Authority to develop and implement a high-speed train system in the state, with specified powers and duties. Existing law, the Safe, Reliable High-Speed Passenger Train Bond Act for the 21st Century, approved by the voters as Proposition 1A at the November 4, 2008, general election, provides for the	01/28/2010-In Senate. Read first time. To Com. on RLS. for assignment.		

	issuance of \$9.95 billion in general obligation bonds for high-speed rail and related purposes. This bill would revise and recast these provisions by repealing and reenacting the California High-Speed Train Act. The bill would continue the High-Speed Rail Authority in existence to make policy decisions relative to implementation of high-speed rail consistent with Proposition 1A. The bill would create the Department of High-Speed Trains within the Business, Transportation and Housing Agency, which would implement those policies. The bill would transfer certain of the existing powers and responsibilities of the authority to the department and would specify additional powers and duties of the authority and department relative to implementation of the high-speed rail project, including the annual submission of a 6-year high-speed train capital improvement program and progress report to the Legislature. The director of the department would be appointed by the Governor , who would serve at the pleasure of the authority, and the Governor would be authorized to appoint up to 10 executive employees of the department who would be exempt from civil service and serve at the pleasure of the director. The bill would provide for acquisition and disposition by the department of rights-of-way for the high-speed rail project. The bill would enact other related provisions.			
<u>ACA 9</u> Huffman	Local government bonds: special taxes: voter approval. The California Constitution prohibits the ad valorem tax rate on real property from exceeding 1% of the full cash value of the property, subject to certain exceptions. This measure would create an additional exception to the 1% limit for a rate imposed by a city, county, city and county, or special district to service bonded	01/14/2010-To inactive file on motion of Assembly Member Torrico.		

	indebtedness, incurred to fund specified public improvements, facilities or buildings, and housing, and related costs, that is approved by 55% of the voters of the city, county, city and county, or special district, as applicable. This additional exception would apply only if the proposition approved by the voters results in bonded indebtedness that includes specified accountability requirements. This bill contains other related provisions and other existing laws.			
<u>ACA 15</u> Arambula	Local government transportation projects: special taxes: voter approval. The California Constitution conditions the imposition of a special tax by a city, county, or special district upon the approval of 2/3 of the voters of the city, county, or special district voting on that tax, except that certain school entities may levy an ad valorem property tax for specified purposes with the approval of 55% of the voters within the jurisdiction of these entities. This measure would alternatively condition the imposition, extension, or increase of a special tax by a local government for the purpose of providing funding for local transportation projects upon the approval of 55% of its voters voting on the proposition. The measure would also make conforming and technical, nonsubstantive changes.	06/01/2009-To inactive file on motion of Assembly Member Arambula.		
<u>SB 12</u> Simitian	Resources: Sacramento-San Joaquin Delta Council. Existing law generally provides that the state, or a county, city, district, or other political subdivision, or any public officer or body acting in its official capacity on behalf of any of those entities, may not be required to pay any fee for the performance of an official service. Existing law exempts from this provision any fee or charge for official services required pursuant to specified provisions of law relating to water use or water quality.	01/27/2010-Placed on inactive file on request of Assembly Member Ma.	Watch	

	This bill would expand the exemption to other provisions relating to water use, including provisions that require the payment of fees to the State Water Resources Control Board (board) for official services relating to statements of water diversion and use. This bill contains other related provisions and other existing laws.			
<u>SB 31</u> Pavley	California Global Warming Solutions Act of 2006: revenue allocations. The California Global Warming Solutions Act of 2006 requires the State Air Resources Board to adopt regulations to require the reporting and verification of emissions of greenhouse gases and to monitor and enforce compliance with the reporting and verification program, and requires the state board to adopt a statewide greenhouse gas emissions limit equivalent to the statewide greenhouse gas emissions levels in 1990 to be achieved by 2020. The act requires the state board to adopt rules and regulations in an open public process to achieve the maximum technologically feasible and cost-effective greenhouse gas emission reductions. The act authorizes the state board to include the use of market-based compliance mechanisms. The act authorizes the state board to adopt a schedule of fees to be paid by the sources of greenhouse gas emissions regulated pursuant to the act, and requires the revenues collected pursuant to that fee to be deposited into the Air Pollution Control Fund and be available, upon appropriation by the Legislature, for purposes of carrying out the act. This bill would provide that revenues generated from fees to fund expenditures beyond the administrative costs of implementing the act, revenues generated as a result of the implementation of market-based compliance mechanisms, or revenues generated from compliance mechanism, as defined, shall be	02/01/2010-Died on File pursuant to Joint Rule 56.		

	appropriated by the Legislature in furtherance of the act for purposes determined by the Legislature .			
<u>SB 67</u> Committee on Budget and Fiscal Review	Property tax revenues: Proposition 1A receivables. Existing property tax law requires the county auditor, in each fiscal year, to allocate property tax revenue among local jurisdictions in accordance with specified formulas and procedures. The California Constitution allows for a specified suspension of the prohibition on the Legislature from modifying the manner of apportioning ad valorem property tax revenues. Existing law requires the auditor of each county to reduce the amount of ad valorem property tax revenue apportionments to each local agency for the 2009-10 fiscal year by 8% of the total amount of ad valorem property tax revenue apportioned to that local agency in the 2008-09 fiscal year. This bill would revise the definition of the term "authority," in the case of an authority issuing bonds in which Proposition 1A receivables are pledged to the payment of the bonds, to require it to consist of not less than 250 local agencies. This bill contains other related provisions and other existing laws.	10/19/2009-Chaptered by the Secretary of State, Chapter Number 634, Statutes of 2009		
<u>SB 83</u> Hancock	Traffic congestion: motor vehicle registration fees. Existing law provides for the imposition by certain districts and local agencies of fees on the registration of motor vehicles in certain areas of the state that are in addition to the basic vehicle registration fee collected by the Department of Motor Vehicles for specific limited purposes. The bill would authorize a countywide transportation planning agency, by a majority vote of the agency's board, to impose an annual fee of up to \$10 on motor vehicles registered within the county for programs and projects for certain purposes. The bill would require voter approval of the measure. The bill would require the department, if requested, to collect	10/11/2009-Chaptered by the Secretary of State, Chapter Number 554, Statutes of 2009		

	the additional fee and distribute the net revenues to the agency, after deduction of specified costs, and would limit the agency's administrative costs to not more than 5% of the distributed fees. The bill would require that the fees collected may be used only to pay for programs and projects bearing a relationship or benefit to the owners of motor vehicles paying the fee and are consistent with a regional transportation plan, and would require the agency's board to make a specified finding of fact in that regard. The bill would require the governing board of the countywide transportation planning agency to adopt a specified expenditure plan.			
SB 165 Lowenthal	Vehicles: parking violation. Existing law makes it a violation for a person to park or leave standing a vehicle in a stall or space designated for disabled persons and disabled veterans unless the vehicle displays a special identification license plate or a distinguishing placard. This bill would establish a schedule of penalties, which are collected as civil penalties, for the violation of the above provision.	06/29/2009-Set, first hearing. Hearing canceled at the request of author.		
SB 205 Hancock	Education finance: federal tax credit bond volume cap. Existing federal law authorizes the Internal Revenue Service to publish the maximum face value amount of qualified school construction bonds, as defined, that may be allocated by the United States Department of the Treasury to each state pursuant to the federal American Recovery and Reinvestment Act of 2009. This bill would assign specified amounts of the state's 2009 federal tax credit bond volume cap to the State Department of Education and the California School Finance Authority. The bill would exempt the assignment and distribution of the federal tax credit bond volume cap under the bill from the rulemaking provisions of the Administrative	01/26/2010-Read second time. To third reading. 02/04/10 12 ASM SENATE THIRD READING FILE		

	Procedure Act. This bill contains other related provisions.			
<u>SB 295</u> Dutton	California Global Warming Solutions Act of 2006. The California Global Warming Solutions Act of 2006 requires the State Air Resources Board to adopt regulations to require the reporting and verification of emissions of greenhouse gases and to monitor and enforce compliance with the reporting and verification program, and requires the state board to adopt a statewide greenhouse gas emissions limit equivalent to the statewide greenhouse gas emissions level in 1990 to be achieved by 2020. The act requires the state board to prepare and approve a scoping plan for achieving the maximum technologically feasible and cost-effective reductions in greenhouse gas emissions. The state board is required to evaluate the total potential costs and total potential economic and noneconomic benefits of the plan. The state board is required by January 1, 2011, to adopt greenhouse gas emissions limits and emission reduction measures by regulation to achieve the prescribed emission reductions. This bill would require the state board to complete a study to reevaluate the evaluation of costs discussed above, and provide this study to the Legislature by October 1, 2009. The state board would be required to report to the Legislature by November 1, 2009, on whether the revised analysis has led, or will lead, to any changes to the scoping plan, and whether any changes should be made to the act's timelines. The bill would require the Legislative Analyst to review the state board's implementation of these requirements, as provided. This bill contains other related provisions.	02/01/2010-Returned to Secretary of Senate pursuant to Joint Rule 56.		
<u>SB 391</u> Liu	California Transportation Plan. Existing law requires various transportation planning activities by state and regional agencies, including	10/11/2009-Chaptered by the Secretary of State, Chapter Number 585, Statutes of 2009		

	preparation of sustainable communities strategies by metropolitan planning organizations. Existing law provides for the Department of Transportation to prepare the California Transportation Plan for submission to the Governor by December 1, 1993, as a long-range planning document that incorporates various elements and is consistent with specified expressions of legislative intent. This bill would require the department to update the California Transportation Plan by December 31, 2015, and every 5 years thereafter. The bill would require the plan to address how the state will achieve maximum feasible emissions reductions in order to attain a statewide reduction of greenhouse gas emissions to 1990 levels by 2020 and 80% below 1990 levels by 2050. The bill would require the plan to identify the statewide integrated multimodal transportation system needed to achieve these results. The bill would require the department, by December 31, 2012, to submit to the California Transportation Commission and specified legislative committee chairs an interim report providing specified information regarding sustainable communities strategies and alternative planning strategies, including an assessment of how their implementation will influence the configuration of the statewide integrated multimodal transportation system. The bill would also specify certain subject areas to be considered in the plan for the movement of people and freight. The bill would require the department to consult with and coordinate its planning activities with specified entities and to provide an opportunity for public input. The bill would make additional legislative findings and declarations and require the plan to be consistent with that statement of legislative intent.			
SB 409	Passenger rail programs: strategic planning.	01/28/2010-In Assembly.		

Ducheny	Existing law creates the Department of Transportation in the Business, Transportation and Housing Agency, with various powers and duties relative to the intercity passenger rail program, among other transportation programs. Existing law creates in state government the High-Speed Rail Authority, with various powers and duties relative to development and implementation of a high-speed passenger train system. The authority has 9 members, 5 appointed by the Governor and 4 appointed by the Legislature. Existing law also creates in state government the California Transportation Commission, with various powers and duties relative to programming of transportation capital projects and assisting the Secretary of Business, Transportation and Housing in formulating state transportation policies. This bill would place the High-Speed Rail Authority within the Business, Transportation and Housing Agency. The bill would require the 5 members of the authority appointed by the Governor to be appointed with the advice and consent of the Senate. The bill would require the authority to annually submit a funding plan to the California Transportation Commission for approval, identifying the need for investments during the fiscal year and the amount of bond sales necessary to accommodate those investments. This bill contains other related provisions.	Read first time. Held at Desk.		
<u>SB 425</u> Simitian	Personal and corporate income taxes: deductions: parking: credits: ridesharing expenses. The Personal Income Tax Law and the Corporation Tax Law allow various deductions in computing the income that is subject to the taxes imposed by those laws. Existing law allows an employer to deduct its expenses in carrying out a parking subsidy and a parking cash-out program, as defined, for employees. This bill would disallow a deduction for expenses of specified employers	02/01/2010-Returned to Secretary of Senate pursuant to Joint Rule 56.		

	for parking subsidies unless all employees provided with a parking subsidy are offered a parking cash-out program in accordance with a specified statute. This bill contains other related provisions and other existing laws.			
SB 454 Lowenthal	Land use: zoning regulations. The Planning and Zoning Law authorizes the legislative body of a city or county to adopt zoning ordinances regulating, among other things, the use of buildings, structures, and land as between industry, business, residences, open space, and other uses. This bill would delete the repeal of these provisions, thereby extending their operation indefinitely. This bill contains other existing laws.	01/25/2010-In Assembly. Read first time. Held at Desk.	Watch	
SB 455 Lowenthal	High-speed rail. Existing law creates the High-Speed Rail Authority with specified powers and duties relative to development and implementation of a high-speed train system. The authority is composed of 9 members, including 5 members appointed by the Governor. This bill would provide that the members of the authority appointed by the Governor are subject to appointment with the advice and consent of the Senate. The bill would require the members of the authority, at a scheduled board meeting, to cause to be prepared an overall project schedule with project delivery milestones on a quarterly basis, and to approve a quarterly contract status report, beginning at the first board meeting after March 1, 2010. The bill would also require the members of the authority to approve all contract amendments at a scheduled board meeting. This bill contains other related provisions and other existing laws.	07/24/2009-Placed on inactive file on request of Assembly Member Torrico.		
SB 560 Ashburn	Regional transportation plans: sustainable communities strategy.	01/22/2010-Failed Deadline pursuant to Rule 61(b)(2).		

	Existing law requires certain transportation planning activities by designated regional transportation planning agencies, including development of a regional transportation plan. Certain of these agencies are designated under federal law as metropolitan planning organizations. Existing law requires metropolitan planning organizations to adopt a sustainable communities strategy as part of their regional transportation plan, which is to be designed to achieve certain targets established by the State Air Resources Board for the reduction of greenhouse gas emissions from automobiles and light trucks in the region. Existing law generally requires transportation planning and programming activities by the metropolitan planning organization to be consistent with the sustainable communities strategy, with certain exceptions. Existing law, to the extent the sustainable communities strategy is unable to achieve the greenhouse gas emissions reduction targets, requires the affected metropolitan planning organizations to prepare an alternative planning strategy showing how the targets may be achieved through alternative development patterns, infrastructure, or additional transportation measures or policies. This bill would provide that greenhouse gas emission credits for counties and cities that site and permit commercial wind, solar, and biomass projects may be used as credit in the formulation of the sustainable communities strategy or an alternative planning strategy. The bill would also provide that transportation trips outside of federal lands that are directly related to activities of a federal or state military installation shall not be included in the emissions inventory otherwise required to be considered to achieve any reductions in greenhouse gas emissions. This bill contains other related provisions and other existing laws.	(Last location was 2 YEAR on 6/8/2009)		
--	--	---	--	--

SB 632 Lowenthal	Ports: congestion relief: air pollution mitigation. Existing law regulates the operation of ports and harbors. This bill would require the Ports of Long Beach, Los Angeles, and Oakland, beginning January 1, 2010, to assess their infrastructure and air quality improvement needs, including, but not limited to, projects that improve the efficiency of the movement of cargo, reduce congestion impacts associated with the movement of cargo, and reduce pollution associated with the movement of that cargo. This bill contains other related provisions and other existing laws.	07/13/2009-Placed on inactive file on request of Assembly Member Torrico.		
SB 783 Ashburn	High-speed rail. Existing law creates the High-Speed Rail Authority with specified powers and duties relating to the development and implementation of an intercity high-speed rail system. Existing law requires the authority to prepare and to submit to the Legislature a revised business plan containing specified elements by September 1, 2008. This bill would require the authority to prepare, publish, adopt, and submit to the Legislature a business plan addressing specified elements no later than January 1, 2012, and every 2 years thereafter, with a draft of the business plan to be available at least 60 days in advance for public review and comment, followed by a public hearing.	10/11/2009-Chaptered by the Secretary of State, Chapter Number 618, Statutes of 2009		
SCA 2 Wyland	Revised biennial session. The California Constitution requires the Legislature to convene in regular biennial session at noon on the first Monday in December of each even-numbered year to consider legislation and the Budget Bill. This measure would require the Legislature to convene in regular biennial session, but would require, commencing on December 6, 2010, that the sessions held in odd-numbered years be budget sessions, and sessions held	05/12/2009-From committee with author's amendments. Read second time. Amended. Re-referred to Com. on RLS.		

	in even-numbered years be general sessions. The measure would require the Legislature in the budget session to adopt Budget Bills for each of the 2 subsequent fiscal years. The measure would require the Legislature, during a budget session, to meet only to conduct oversight and review of the revenues and expenditures of the state and to consider Budget Bills , budget implementation bills, as defined, and related revenue bills, except the Legislature could consider urgency statutes. This bill contains other related provisions and other existing laws.			
SCA 3 Wyland	Transportation Investment Fund. Article XIX B of the California Constitution requires, commencing with the 2003-04 fiscal year, that sales taxes on motor vehicle fuel that are deposited into the General Fund be transferred to the Transportation Investment Fund (TIF) for allocation to various transportation purposes. Article XIX B authorizes this transfer to be suspended in whole or in part for a fiscal year during a fiscal emergency pursuant to a proclamation by the Governor and the enactment of a statute by a 2/3 vote in each house of the Legislature, subject to various restrictions. This measure would delete the provisions authorizing the transfer of revenues to the TIF to be suspended during a fiscal emergency. The measure would also prohibit a loan of TIF revenues under any circumstances, and would prohibit any statute that would reduce the extent to which these tax revenues are deposited into the General Fund for transfer to the TIF for transportation purposes.	04/23/2009-Set, first hearing. Hearing canceled at the request of author.
