OPERATIONS AND PROGRAM BUDGET OF THE CLOVIS URBAN CONSOLIDATED TRANSPORTATION SERVICE AGENCY

INTRODUCTION

The City of Clovis operates two types of public transit service. Clovis Stageline provides general public, fixed-route service within the City limits and to California State University, Fresno. Clovis Roundup operates specialized demand-responsive service for elderly and disabled residents with scheduled trips within Clovis/ Fresno metropolitan area. The City of Clovis has designated Roundup services as the Consolidated Transportation Service Agency (CTSA) for the Clovis Transit service area.

INTRODUCTION

The Consolidated Transportation Service Agency (CTSA) Operations Program and Budget (OPB) for the Clovis Urban Area has been developed in cooperation with the Council of Fresno County Governments (COFCG). The OPB is intended to:

1. Provide a program of operations, including an implementation schedule for new or modified services, and a program budget for CTSA coordinated and consolidated social service transportation services for the program year, July 1, 2010 through June 30, 2011.
2. Serve as a resource document for local elected officials, social service agencies, and citizens.
3. Demonstrate the CTSA's compliance with Section 99275.5 of the Public Utilities Code concerning Article 4.5 claim evaluation criteria and required findings, and with the COFCG Assembly Bill 120 Action Plan (adopted February 1982).
4. Document efforts to improve coordination and consolidation of social service transportation services in order to:
 - a. Demonstrate compliance with Chapter 1120 of the 1979 California Statutes by addressing and substantiating which of the coordination benefits specifically listing in the legislation should be pursued by the CTSA.
 - b. Create additional opportunities to utilize supplemental grant funding available from federal and state assistance programs to support social service transportation services by demonstrating that "coordination criteria" have been met.

Operational concerns for FY11 include:

- Continued coordination for elderly and disabled riders between the fixed route and demand responsive services;
- Close monitoring of time performance on fixed route service including an evaluation of changes to fixed-route service;
- Additional demand for service to newly expanded service areas to the northwest and northeast, especially the Harlan Ranch area and southeast urban area;
- ADA improvements to Stageline bus stops;
- Coordination with the City of Fresno to transition passengers between paratransit services to/from Clovis for Fresno residents;
- Focus marketing about fixed-route service changes and analysis of the results of a deviated fixed-route.
- Coordination with Fresno Area Express and Fresno County Rural Transit for a county-wide farebox system, and coordinated scheduling pending funding from Proposition 1b grants.
- Continue to enforce policies and enact suspensions to reduce the number of no-shows and late cancellations on Roundup in order to improve efficiency.
- Impacts of state funding changes including the calculation of funding and possible reduction in funding.

GOALS, OBJECTIVES, AND POLICIES FOR CONSOLIDATED TRANSPORTATION SERVICE AGENCIES (STATE AND REGIONAL MANDATES)

In 1985 the Clovis City Council adopted the following goals, objectives and standards for Clovis Transit as part of the transit planning process. Annually the Council reviews and amends these standards as needed.

Chapter 1120 of the 1979 California Statutes and the Assembly Bill 120 Action Plan declare goals, objectives and policies which apply "generally" to CTSA services. These are as follows:

GOAL

Improve transportation service required by social service fund recipients by promoting the improved coordination and consolidation of transportation services.

Objectives Which May Apply

1. Centralized administration for the elimination of duplicated administrative requirements.
2. Identification and consolidation of all sources of funding for the provision of more effective and cost efficient services.

3. Centralized dispatching for more efficient vehicle use.
4. Centralized maintenance for adequate, regular and more cost effective vehicle maintenance.
5. Adequate driver training programs for safer vehicle operation and lower insurance costs.
6. Combined purchasing for more effective cost savings.

Policies

1. Any centralized administration shall utilize, to the maximum extent possible, existing public and private administrative capabilities and expertise to achieve the system goals.
2. Existing sources of funding utilized prior to the Social Service Transportation Improvement Act (Assembly Bill 120) shall, to the maximum extent possible, be continued.
3. The consolidation of services shall, to the maximum extent possible, utilize existing agency operating and maintenance personnel and expertise.
4. The COFCG shall utilize its regulatory roll over Transportation Development Act (TDA) moneys by monitoring and evaluating the performance of the CTSA's through the TDA claim process, an annual financial audit, and annual productivity evaluation, a triennial performance audit, and the CTSA's compliance with the Action Plan.
5. The COFCG, as part of its on going transportation planning process, which includes review by various technical committees, shall review CTSA designates compliance with the Action Plan at least annually.
6. The COFCG shall review, through the Executive Order 12372 review process, the transportation services offered by social service agencies and their consistency with the Action Plan, and make appropriate comments and findings encouraging their participation with the CTSA, as part of the final Clearinghouse commentary.
7. The COFCG shall encourage members to evaluate their financial commitments to local social service projects (which either in full or part provide transportation services) and make appropriate recommendations for proper coordination with the CTSA in order to maximize the effective use of local transportation dollars.
8. Transportation Development Act/Local Transportation Fund (TDA/LTF) Article 4.5 moneys shall not be expended without a minimum dollar for dollar match with other available funds to the CTSA.
9. The CTSA shall be required to maintain, at a minimum, an overall farebox revenue to operating cost ratio of 10% for all CTSA transportation services. The 10% farebox recovery may also be provided for by CTSA contractual arrangements or donations. The funding formula would then be 45% TDA/LTF Article 4.5 moneys and 55% local match.

GOALS, OBJECTIVES, AND STANDARDS FOR THE CLOVIS CONSOLIDATED TRANSPORTATION SERVICE AGENCY (LOCAL MANDATES)

In 1985 the Clovis City Council adopted the following goals, objectives and standards for Clovis Transit as part of the transit planning process. Annually the Council reviews and amends these standards as needed.

GOAL 1. SERVICE LEVELS: CLOVIS TRANSIT WILL PROVIDE PUBLIC TRANSPORTATION SERVICE TO A MAXIMUM NUMBER OF PEOPLE IN THE CLOVIS AREA.

Objective A: To provide a transit system that meets the public transportation needs of the service area.

Standard 1: Clovis Transit's demand responsive service (Roundup) will operate seven (7) days a week excluding City observed holidays. Operational hours for demand responsive service in Clovis is 6:15 A.M. to 6:15 P.M. Monday through Friday. Saturday & Sunday hours are 7:00am to 3:00pm or less depending upon demand.

Standard 2: Clovis Transit's CTSA Roundup services shall implement "real time dispatching" for demand responsive service to improve overall operations and increase ridership.

Objective B: To provide CTSA Roundup transit services that adequately serves the elderly and disabled residents.

Standard 1: Clovis Transit should maintain base fare levels for elderly and disabled riders, those qualifying for ADA/curb-to-curb or door-to-door service pay twice the base fare for service.

Standard 2: As per The Americans with Disabilities Act of 1990 (ADA) all new vehicles purchased must have ADA lifts. All vehicles meet those regulations as of March 16, 1997.

Objective C: To secure a stable and sufficient local funding mechanism.

Standard 1: Clovis Transit should identify and coordinate funding mechanisms that will address all transportation funding needs in the Clovis Area.

Standard 2: Clovis Transit should identify short and long range needs and maximize revenue resources, utilizing all funding mechanisms including federal grants, State enabling legislation, and farebox revenue.

GOAL 2: **SERVICE QUALITY: CLOVIS TRANSIT WILL PROVIDE A QUALITY SERVICE.**

Objective A: To provide reliable public transit service.

Standard 1: Clovis Transit's CTSA Roundup Services should operate its demand response service within five (5) minutes before the scheduled pick up time and no more than fifteen (15) minutes after the scheduled pick up time. Drivers shall not wait for patrons for more than five (5) minutes after arrival at the designated pick up time. Passengers going to Fresno must be ready an hour before the pick-up time and may wait 45 minutes to one hour for a ride back to Clovis.

Objective B: To provide clean, attractive and comfortable vehicles and facilities.

Standard 1: All CTSA Roundup vehicles returning to the yard after revenue service should be swept and dusted before being assigned for service the following day.

Standard 2: The exteriors of Clovis Transit vehicles should be cleaned at least once each week.

Standard 3: In winter, the heaters on Clovis Transit vehicles should work 100% of the time.

Standard 4: In summer, at least 95% of all vehicles on the street should have operable air-conditioners.

Objective C: To provide a safe system.

Standard 1: Clovis Transit vehicles should operate in excess of 150,000 miles between preventable accidents, and bus operators should be formally recognized for their safe driving.

Standard 2: Buses should be checked daily for proper operation and condition of lights, mirrors, radios, and fluids; detailed mechanical inspections should be done every 3,000 miles/45 days. Operations, maintenance, and other employees will be provided safety training at the beginning of their employment and such training will be updated on a regularly scheduled basis.

Objective D: To record and respond to all public comments.

Standard 1: Clovis Transit should continue to track and evaluate all compliments, complaints, and inquiries from the public.

GOAL 3: **SERVICE PRODUCTIVITY: CLOVIS TRANSIT WILL OPERATE AN EFFICIENT AND EFFECTIVE BUS SYSTEM.**

Objective A: To establish and maintain system-wide productivity indicators.

Standard 1: Clovis Transit should achieve a 10% farebox recovery ratio for demand responsive (CTSA Roundup Service) and 20% for fixed route (Stageline Services).

Standard 2: Clovis Transit should record and report, at least monthly with quarterly reports forwarded to Clovis City Council, the following performance indicators.

Total Monthly Ridership
Total Monthly Revenue
Total Monthly Expense
Total Revenue Hours
Passengers Per Revenue Mile
Total Revenue Miles
Total Non-Revenue Miles
Average Weekday Ridership
Farebox Ratio
Total Road Calls
Total Operating Expense Per Passenger
Total Operating Expense Per Revenue Hour
Total Operating Expense Per Revenue Mile
Total Revenue Per Revenue Hour
Total Revenue Per Revenue Mile
Passengers Per Revenue Hour
Equivalent Full Time Employees

GOAL 4 **SYSTEM IMAGE: CLOVIS TRANSIT WILL STRIVE TO PROMOTE ITS SERVICE AND IMPROVE ITS IMAGE.**

Objective A: To develop and implement a fixed-route Request for Proposal requirement in which the Contractors will assist in the update of the Clovis Transit Marketing Program.

Standard 1: Clovis Transit will continue to review and update its marketing program.

Standard 2: Clovis Transit should stress the positive impact of Clovis Transit in the community through press releases, speeches, and involvement in community activities on the average of at least once-a-month.

Standard 3: Through effective marketing and implementation of route changes, Clovis Transit should increase overall system ridership.

Objective B: To provide complete and accurate public transit information.

Standard 1: Current bus schedules and system information should be available to the public at all major public facilities.

Standard 2: Telephone service information should be available to the public at all times during hours of operation.

Objective C: To provide for community involvement in transit system affairs.

Standard 1: Clovis Transit should become involved in and work with citizens groups, the Chamber of Commerce, the Downtown Association and other area merchant associations, to communicate the services and benefits of Clovis Transit.

Standard 2: Clovis Transit should develop a public relations program with area schools to educate children about the bus system

OVERVIEW

The "Assembly Bill 120 Action Plan for Fresno County" (February 1982) developed by the COFCG designated the City of Clovis as the CTSA for the Clovis Urbanized Area. The Clovis CTSA is coordinated by the Transit Supervisor and General Services Manager.

Clovis Roundup provides demand-responsive, curb-to-curb and door-to-door transportation service for the elderly and disabled residents within the City's existing Sphere of Influence. Service is available Monday through Friday and limited weekend service within the Clovis area, and Monday through Friday to Fresno.

The program was originally funded with an Older Americans Act Grant but now is funded by City and TDA/Local Transportation Funds. The most significant social service provider in Clovis is the Clovis Senior Center. Most social services in the area are provided by or through the Senior Center. Clovis Transit also works closely with Central Valley Regional Center, Clovis Unified School District and various County departments. In FY 88, the Clovis City Council designated its Roundup service solely as a Consolidated Transportation Service Agency (CTSA) function. Due to increasing operational costs, (specifically greatly increased maintenance costs, fuel costs, and salary increases) local Measure "C" dollars are used to provide the necessary match of TDA/LTF Article 4.5 funds.

Roundup service operates within Clovis Monday through Friday, 6:15 A.M. to 6:15 P.M. and weekends from 7:00 A.M. to 3:00 P.M. Service to Fresno is available Monday through Friday, 7:00 A.M. to 4:00 P.M. Reservations can be made up to fourteen (14) days in advance and next day reservations with ADA riders having priority service.

Effective August 2009 the Clovis City Council approved a fare increase for the Roundup services: \$1.25, within the Clovis area per one-way trip. The zonal fares for curb-to-curb service within Fresno range from \$2.00 to \$2.75 depending upon the destination within the zones and for door-to-door service for an additional \$1.25 per trip. A change was also made to increase the minimum age for an eligible senior from 55 to 65. Also in August 2009, Stageline fares were revised to become the following per one-way trip: General Public (age 6-64) \$1.25; Disabled riders \$.50; Senior Citizens age 65 and over Free; Children under age 6 with a fare paying adult Free. The system utilizes 17 vehicles all of which are wheelchair lift-equipped and met ADA standards. Clovis Transit also operates two Ford Freestar vans to transport ambulatory passengers during peak times and has Dodge vans as back up.

Marketing efforts in FY 09-10 included radio advertising, print advertising and community events. Stageline continued marketing the weekend service and free rides for seniors over age 65. Clovis Transit information is listed in the City of Fresno FAX guide. The Metro Pass, which is valid on both Stageline and FAX buses at a cost of \$40.00 per month, has been a successful program and is continuing. A county-wide registering farebox system is also being evaluated in coordination with Fresno Area Express and Fresno County Rural Transit. However with the State's difficulty in selling bonds for Proposition 1B, the project is on hold until funding is available.

The weekend and evening taxi voucher program that began in 2002 for ADA passengers was eliminated in August 2009 due to excessive cost and a reduction in funding. Accommodations with alternative transportation were available to a majority of the passengers. A taxi script program for seniors age 70+ is still available through Measure C funding countywide.

In 2004 and 2005 two Ford minivans were added to the fleet. They are operated specifically by van drivers and help serve those passengers who do not need the wheelchair lift. Those vehicles are nearing replacement age and will be replaced in FY 10-11.

DESCRIPTION OF EXISTING PARATRANSIT SERVICES

A. CITY OF CLOVIS - ROUNDUP

1. Background

Roundup, is a demand-responsive service providing both curb-to-curb and door-to-door service. Service is available to qualified riders requesting transportation within the service area and provides essential service to many ambulatory and non-ambulatory passengers. Service is currently provided by radio dispatched, lift-equipped mini-buses as well as two mini-vans for ambulatory passengers.

2. Service Area

Roundup, operated by the City of Clovis, provides both curb-to-curb and door-to-door service on a demand-responsive basis to elderly (65+) and disabled residents within its existing boundaries, primarily along Shepherd Avenue to the north, Dakota Avenue to the south, De Wolf Avenue to the east and west to the City limits. Zonal service is also operated within the City of Fresno as far north as Shepherd Avenue, south to Kings Canyon, west to West Avenue and south to Downtown Fresno.

3. Days and Hours of Operation

Currently, Roundup operates within Clovis' Sphere of Influence Monday through Friday from 6:15 A.M. to 6:15 P.M. and Saturday & Sunday service from 7:00 A.M. to 3:00 P.M. as demand requires. Service to Fresno operates Monday through Friday 7:00 A.M. to 4:00 P.M.

4. Response Time

Service is provided on both an advance-reservation basis and a real-time, space-available basis. Passengers may make reservations up to fourteen (14) days in advance or the required 24 hours/one working day in advance and could displace non ADA riders. Service is offered on a first-called/first-served basis. Roundup policy requires the passenger to be ready at least one (1) hour before a scheduled Fresno appointment and 45 minutes for a Clovis appointment with pick-up within 5 minutes of designated time and no longer than 15 minutes after designated time for pick-up.

5. Eligibility

Service is available to those persons who have been ADA certified and/or are over 65 years in age. To become certified, the applicant must complete an ADA application and return it to the administrative offices located at 155 N. Sunnyside Ave. Applications are reviewed by an outside rehabilitation center and the dispatcher maintains a file of ADA certified ridership. Clovis Transit utilizes St. Agnes Rehabilitation for the ADA application approval process.

6. Fares

CURB-TO-CURB

Curb-to-curb service is provided for elderly or disabled passengers with no driver assistance. Convenience passes are available in denominations of \$23.00, \$36.00 and \$50.00. An attendant may ride free with a certified ADA passenger. One-way **curb-to-curb** fares are as follows:

- \$1.25 within Clovis
- \$2.00 for travel to Fresno north to Shepherd, south to McKinley, and west to Palm.
- \$2.75 for travel to Fresno north to Shepherd, south of McKinley to Kings Canyon and downtown Fresno, and west of Palm Avenue to West Avenue.

DOOR-TO-DOOR

Door-to-door service is provided for elderly or disabled passengers with driver assistance as needed. Such assistance includes opening and locking of exterior doors, pushing wheelchairs from the door to the bus, assisting on and off the bus, carrying parcels to and from the bus, etc. Such assistance does not include providing assistance inside the passenger's residence. The fare for one-way, **door-to-door** service for passengers requiring special assistance is an additional \$1.25 per trip.

7. Restriction on Trip Purpose and Capacity Constraints.

Roundup does not restrict trips based on trip purpose. Dispatchers schedule as many trips as can be accommodated beyond pre-scheduled subscription trips (less than 50%) on a space-available basis.

Roundup policies do not restrict the number of trips provided to an individual nor is a waiting list maintained. Roundup's operational practices do not allow for substantial numbers of untimely pick-ups, trip denials, missed trips, or excessively long trips that would limit availability of service.

8. Automated Dispatching

Clovis Transit has purchased and installed a dispatching computer program with GIS mapping systems and automates all dispatching, routing and scheduling functions as well as create reports regarding ridership, fares, and operating costs.

9. Vehicle Profile

Roundup operates with seventeen (17) lift-equipped mid-size buses and two mini-vans for ambulatory passengers.

Vehicle Profile -- Roundup Fleet

Year	Model	Number	Lift Equipped

FOLLOW-UP ACTIONS ON THE TRIENNIAL PERFORMANCE AUDIT FISCAL YEARS 2004-2006

The latest Triennial Performance Audit of the City of Clovis Transit System was completed by PMC Inc. in June, 2007. The audit concluded that during the audited period the City of Clovis was conducting its transit operations in an effective manner. The audit recommended the following:

FUNCTIONAL REVIEW, FINDINGS AND RECOMMENDATIONS

Triennial Audit Findings

1. All TDA compliance requirements were met except for the late submittal of State Controller's Reports in FY2005.
2. Of the four prior audit recommendations, one was fully implemented (reporting weekend hours for Roundup in the State Controller Report), one was partially implemented (submitting State Controller Report on time), another was not implemented (developing written procedures for addressing customer complaints), and the last is an on-going effort (closely monitoring performance trends). The prior recommendation for Clovis Transit to develop written procedures for addressing complaints is carried forward in this audit as a recommendation for full compliance.
3. Operating costs systemwide increased by 37% over the last three years. As the service area grew due to population growth, operating expenses increased to meet the demand. Factors such as fuel price increases, wage increases, and maintenance and repair costs of an aging fleet contributed to the growth in operating expenses. Additional buses were added to junior and high schools, such as Buchanan High School and Reagan Education Complex.
4. Total ridership for Clovis Transit increased by 38 percent during the audit period. By mode, Stageline ridership increased by 44 percent, and Round Up ridership increased by 22 percent. Additional bus trips and better efficiencies through reduction of passenger transfer between buses improved ridership. The growth in the senior population as part of the City's overall population growth contributed to the ridership growth on Round Up.
5. As a result of ridership growth, fare revenue increased over 31 percent over the last three years. A systemwide fare increase was implemented in January 2002 which raised the fares for both Stageline and Round Up. Despite the growth in fare revenue, the amount of local assistance (Measure C) required for Clovis Transit to meet the TDA farebox ratio increased by 33 percent over a three year period. This is due to operating costs increasing more quickly than fare revenue being generated. Without Measure C support, the farebox ratio for Clovis Transit is around 6 percent.
6. New development is occurring along the northern edges of the City, including the near completion of the Clovis North Educational Center and the Clovis Center Community College. Clovis Transit is working with Fresno Area Express to determine how transit service could be extended to these areas.

7. In May 2004, the City entered into an agreement with the County to provide Round Up service to the unincorporated island of Tarpey Village south of Clovis. Payment by the County is based on the proportion of ridership by residents in Tarpey Village.
8. The rental of the trolley for special events has been quite successful. It was indicated that the trolley are rented about two weekends a month. Because the system does not receive federal transit funding, Clovis Transit is not subject to strict federal charter service policies
9. Transit vehicles are equipped with Automatic Vehicle Location (AVL) software, which has been recently upgraded. The AVL system is also equipped with a panic foot pedal to covertly alert the transit office in the event of an emergency. The technology is still in the process of being integrated with the dispatch and scheduling program.
10. An innovative program for addressing missed pick-ups on Roundup was developed to provide evidence that the vehicle arrived at the destination.
11. During the audit period, in conjunction with the City of Fresno, Clovis updated its Short Range Transit Plan (SRTP) 2005-2010 for the Fresno-Clovis Urbanized Area. The SRTP serves to update the system's operating plan and capital program.
12. The Measure C Extension approved by Fresno County voters in November 2006 is expected to have a tremendous impact on Clovis Transit's service planning and delivery. Clovis is projected to receive approximately \$33.7 million over the twenty year span of the measure.
13. The City received approximately \$30,000 per year from exterior advertising on the buses in the past three years. As the current with a private vendor is expiring, the City is also examining the potential of having advertising featured on existing bus shelters and finding sponsors to fund the placement of additional shelters.

Triennial Audit Recommendations

1. Perform “final” review of the State Controller’s Report for Consistency and Accuracy.

The Transit Supervisor should conduct final review of the annual State Controller’s Report to ensure that the data being submitted to the State is accurate and is consistent with the information provided to the Fresno COG for the Transit Productivity Evaluation Report

The new General Services Manager will work with Finance to review the annual State Controller Report.

2. Develop and document a standardized complaint handling process.

As a carryover from the prior performance audit, Clovis Transit should develop a step-by-step process and flow chart that outlines the steps for addressing a customer complaint, from the initial phone call taken by the dispatcher, to follow up actions taken by transit staff. A standalone, standardized complaint form should be developed that has sections to be filled out by staff for each step, including the nature of the complaint, who was forwarded the complaint for handling, actions taken to address the complaint, and if there was follow up communication with the customer. Standardizing and documenting the complaint process ensures a transparent and consistent process for both the transit system and the public. The written procedures might also be included in the Operations Manual.

A new procedures manual including a form and procedures for complaints will be designed by the General Services Manager.

3. As resources allows, expand the mobility training program.

The Transit Supervisor has recently implemented mobility training for senior citizens residing in senior complexes to instruct them on the use of the fixed-route system in lieu of the dial-a-ride service. Provided that Round Up service is more expensive to provide on a per passenger basis than Stageline, eligible passengers could be made more aware of Stageline, which is ADA accessible and could provide the same trip. The mobility training program enables transit staff to educate and train existing and potential riders of the fixed route service and lessen concerns they may have.

As staffing and funds are available, the training will continue. As of November, 2007, seniors age 65 and over are free on Stageline which offers further incentive for Round Up passengers to travel on Stageline fixed-route services.

**CLOVIS STAGELINE/ROUNDUP:
2009 PRODUCTIVITY EVALUATION COMMITTEE RECOMMENDATIONS**

A. *Comply, where feasible, with the FY04 through FY06 Triennial Performance Audit Recommendations.*

This is ongoing

B. *Continue to monitor effectiveness of Stageline service, optimize routing, and seek ways to increase ridership to maintain the State-mandated 20% farebox ratio without continued reliance on Measure C farebox subsidy.*

Although the farebox ratio was not achieved directly from ridership contributions, the Clovis City Council allocated Measure "C" funds be utilized on the Local Transportation Fund Claim to meet the State mandated 20% ratio. A fare increase was implemented in August 2009 to assist with a reduction on Measure C funding. Exterior bus advertising also provides revenue.

C. *Continue to improve CTSA potential through increased coordination and consolidation with local social service transportation providers to reduce its reliance on Measure C farebox subsidy.*

Currently, Clovis Transit is working with CVRC by transporting clients and providing assistance in the transitional training of special needs riders who are able to travel on either demand responsive or fixed-route service. This on-going coordination with local social service agencies to improve independent living skills of special riders will continue. Additional coordination occurs with Clovis Unified School District to assist special needs classes in travel training and education regarding transportation available to the disabled.

D. *Continue to coordinate with FAX to consolidate services for maximum efficiency and effectiveness.*

This is ongoing. There is regular communication and coordination between all transit services in Fresno County. Clovis, Fresno County Rural Transit and FAX are working together on procuring a county-wide farebox system.

E. *Implement responsibilities under the Americans with Disabilities Act of 1990.*

Full compliance has been obtained. A dispatcher is now available during all hours of operation.

F. *Address responsibilities under the Clean Air Act of 1990, the San Joaquin Valley Unified Air Pollution Control District Clean Air Plan, the Council of Fresno County Governments Transportation Control Measures Plan and Congestion Management Plan (CMP).*

This is ongoing. When operationally feasible, Clovis Transit will purchase low emission vehicles to help reduce emissions.

G. *Coordinate with the Fresno County Department of Social Services to plan and implement transportation strategies focused on addressing the State mandates Welfare to Work - CalWorks Program.*

Coordination with Human Services is ongoing including coordinating with bus pass purchases. A number of students in the program attend the Clovis Adult School, which is served every 30 minutes.

H. Prepare for the TDA Triennial Performance Audit for FY 2003-2004 through FY 2005-2006.

Audit was completed in June, 2007.

I. Prepare and adopt updated Short Range Transit Plans / Operation Program and Budget to reflect the inclusion of Measure C funded programs.

With the passage of Measure C in November 2006, Clovis Transit implemented some of the service improvement as addressed in the expenditure plan. A consultant was hired to evaluate further service improvements and changes. However, Measure C and LTF funds are lower than projected due to the economic downturn and some of the newly implemented services were suspended. Future service changes will continue to be evaluated.

**AMERICANS WITH DISABILITIES ACT OF 1990
ADA PARATRANSIT PLAN**

As of 1996, the City of Clovis has been in full compliance with the ADA. Clovis Transit's entire fleet is lift-equipped. ADA reports have been completed until 1996 and letters of compliance completed for each year thereafter.

- \$1.00 per trip
- \$1.75 per trip
- \$2.50 per trip

- FRESNO SERVICE AREA BOUNDARY
- MUST RESIDE WITHIN THIS BOUNDARY

RESOLUTION 10 -

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF CLOVIS ADOPTING THE
CTSA'S OPERATIONS AND PROGRAM BUDGET FOR CLOVIS TRANSIT ROUNDUP
SERVICES

WHEREAS, the Council of Fresno Governments (COFCG) has separately designated the Clovis Transit Roundup Service as a Consolidated Transportation Service Agency (CTSA); and

WHEREAS, the Fresno County Economic Opportunities Commission (FCEOC) has prepared, under contract to the COFCG, the 2010-2011 "Operations and Program Budget for the Fresno CTSA, the Clovis CTSA, and the Rural CTSA"; and

WHEREAS, the document has been prepared in cooperation with Fresno Area Express, Clovis Transit, the FCEOC, and the Fresno County Rural Transit Agency (FCRTA); and

WHEREAS, the document has been prepared in conjunction with the annual performance evaluation process, the Short Range Transit Plans and Public Transit Budgets; and

WHEREAS, said document has been reviewed during the past forty-five (45) days;

NOW, THEREFORE, BE IT RESOLVED, that the City Council of the City of Clovis does hereby adopt the "Operations and Program Budgets for the Fresno CTSA, Clovis CTSA, and Rural CTSA, 2010-2011" (Attachment), as the basis for it's continued responsibility as the designated CTSA for the City of Clovis

The foregoing resolution was approved at the regularly scheduled meeting of the Clovis City Council on the ____ day of _____ 2010, by the following vote to wit:

AYES:

NOES:

ABSENT:

Dated:

Mayor

City Clerk
