Seven months ago the Fresno COG Policy Board approved entering into a contract with Quad Knopf consultants to begin work on the Golden State Corridor Project through the cities of Fowler, Selma and Kingsburg. This 13.5 mile long corridor improvement study is much more than a simple pavement rehabilitation project. It also includes economic development, design guidelines, investigation of the use of reclaimed wastewater for irrigation, and environmental analyses. This update will provide a status report on the work already accomplished and future plans for the Corridor.
