The Plan will guide the provision of transit services in the FCMA over the next five years. The Social Service Transportation Advisory Council (SSTAC) began their review of the document on April 26, 2011. Action: Staff recommends the approval of the 2012-2016 Short-Range Transit Plan as Resolution 2011-19

D. Unmet Transit Needs Staff Report and Recommendations – Resolution 2011-20, PUBLIC HEARING, June 30, 2011

Summary: The FRESNO COG Policy Board must determine that public transportation needs within Fresno County will be reasonably met in Fiscal Year 2011-12 prior to approving claims of Local Transportation Funds for streets and roads. The FRESNO COG's Social Service Transportation Advisory Council (SSTAC) is responsible for evaluating unmet transit needs. Each year the SSTAC begins the process of soliciting comments from the public by sending approximately 400 letters to agencies and individuals interested in providing feedback on their public transportation needs within Fresno County. The request for comments letters, English and Spanish, were sent on February 8, 2011.

In addition to the request for written comments, SSTAC held four information-gathering meetings.

The first meeting was held in the City of Sanger on February 16, 2011. The meeting location was set to facilitate comments from the residents of Eastern Fresno county including: Fowler, Kingsburg, Orange Cove, Parlier, Reedley, Sanger, Selma, and the surrounding unincorporated communities. The meeting time was set for 2:00 p.m. No comments were received.

The second meeting was held in City of San Joaquin on February 17, 2011. The meeting time was 5:00 p.m. and was not part of the original schedule, but was added to coincide with a planned community dinner. No comments were received.

A third meeting was held again in the City of San Joaquin on February 23, 2011. The location was selected to facilitate comments from the residents of Western Fresno county including:

Coalinga, Firebaugh, Huron, Kerman, Mendota, San Joaquin, and the surrounding unincorporated communities. The meeting was set for 2:00 p.m. No comments were received.

The final meeting was held in the City of Clovis on February 25, 2011. The meeting location was selected to facilitate comments from the residents of the Fresno-Clovis Metropolitan Area (FCMA) and surrounding unincorporated communities. The meeting time was set for 1:00 p.m. No comments were received.

We have received three comment letters regarding potential unmet needs. The first letter came from Mr. Augustine Martinez, commenting on the lack of rural service directly to the Amtrak station in Downtown Fresno. Jeff Webster, of FCRTA, informed Mr. Augustine that there is an unwritten directive that if a passenger coming into downtown, on the FCRTA system, asked the driver to go to the Amtrak station that the bus would accommodate that trip. Effective July 1, 2011, this will be officially listed in the FCRTA schedule.

The second comment came from Ms. Veronica Garibay, of California Rural Legal Assistance, Inc. (CRLA). Ms. Garibay's comments were on behalf of Community United in Lanare. CRLA's comments reference the need for bus shelters and an additional service trip at mid-day. Currently, Lanare is serviced by Coalinga Transit. Ridership is very low in Lanare and not adequate to support an additional trip or transit amenities. Each of these has a threshold or performance goal that must be obtained in order to warrant the service.

The last comment letter came from Ms. Catherine Huerta of the County of Fresno Department of Social Services. Ms. Huerta is requesting additional service to rural communities of Kerman, Coalinga, Selma, Orange Cove, Reedley, Kingsburg and Fowler. FCRTA, under the "Welfare to Work" program provided these additional services in the past. Ridership was insufficient to warrant the continuation of the service. FCRTA has recommended to the rural residents, as well as the Department of Social Services, that a more effective form of transportation would be the Fresno COG's Commuter Van Pool Program. In addition, the 2010-11 FCRTA budget allocated \$1,000,000 to purchase 35 vans, to be managed by KCAPTA, and make them available to rural residents of Fresno County. This will significantly reduce the shared expenses and should further increase participation.

After thorough review of all items, the Social Services Transportation Advisory Committee (SSTAC) found there to be no unmet transit needs that are reasonable to meet.

Action: Approval of resolution 2011-20 making the finding that there are no unmet transit needs that are reasonable to meet in Fresno County.

G. San Joaquin Valley Railroad Study – Consultant Selection/Contract [THOMPSON]

Summary: In response to a request from the Fresno COG, Railroad Industries Inc. submitted the enclosed proposal for a study of the Westside portion of the San Joaquin Valley Railroad in Fresno County. This study will follow the same format as the previously completed study conducted for the same line on the Eastside portion of the SJV Railroad in Fresno County. The information developed from this study, in conjunction with the earlier study and a similar study completed for Tulare County, will help Fresno County understand the usefulness, and therefore importance, of the corridor and may inform potential future policy decisions regarding the corridor, not only in Fresno County but in all counties in which the San Joaquin Valley Railroad operates. Specific study tasks include the following:

- Physical inspection of the rail line to determine condition, value and problem areas.
- Interviews with existing customers to verify traffic amount, what service is needed, and estimate projected traffic.
- Develop an operating plan for the corridor and determine the economic feasibility for the operations.
- Develop all findings into an illustrated comprehensive report including all research, interview and inspection results, valuations and economics, analysis, recommendations and next steps.
- Develop the formal report into presentations to be given to the TTC/PAC and Board.

Staff recommends the retention of Railroad Industries Incorporated (Reno, Nevada) to conduct the study. They conducted the earlier study of the Eastside portion of the SJV Railroad in Fresno County and so bring an immediate familiarity with the issues facing the corridor. They are able to begin the study immediately, such that the study results and recommendations can be presented to COG Committees and Policy Board during the September/October time frame, an important consideration if there is a need to move quickly on a potential regional response to corridor developments. Work Element 151 of the 2011/12 Overall Work Program includes funding for the study.

Action: Approve the selection of and authorize the Executive Director to enter into a contract with Railroad Industries Inc. in an amount not to exceed \$30,000 to conduct a study of the Westside portion of the San Joaquin Valley Railroad Corridor in Fresno County.

II. TRANSPORTATION ACTION / DISCUSSION ITEMS

A. Adoption of Annual Availability Advisory Percentages for Disadvantaged Business Enterprise (DBE) Participation – Resolution 2011-12 - PUBLIC HEARING, JUNE 30, 2011 [BESHEARS]

Summary: A Caltrans Availability and Disparity Study revealed statistically significant underutilization in four of six groups presumed to be disadvantaged as defined in 49, CFR Part 26. As a result the Federal Highways Administration (FHWA) has approved the California State Department of Transportation 2009 Disadvantaged Business Enterprise Program requiring implementation of race conscious measures. Local agencies adopted the California Department of Transportation Disadvantaged Business Enterprise Program Implementation Agreement and set race conscious goals for the presumed four underutilized groups, African American, Asian Pacific American, Native American, and Women. Two other groups, Hispanic Males or Subcontinent Asian Males shall be reported and counted toward the Race Neutral portion of the local agencies overall Anticipated Annual DBE Percentage Level.

We mailed a notice to our entire consulting database advising them of the requirements and requesting updates to their DBE status. The result of their response has been tabulated and our database now has 315 companies of which one is African American, five are Asian Pacific American, sixteen are women, ten are Hispanic Male, and three are Subcontinent Asian Male reflecting an 11.11% over all Anticipated Advisory DBE Participation Level, of which race conscious groups total 8.01% and race neutral groups total 3.1%.

A public notice was put in the Fresno Bee noticing this public hearing identifying \$579,500 in contracting opportunities programmed in the 2011/12 Overall Work Program.

During the 2010/11 fiscal year we did 15 procurements totaling \$4,674,525. Overall DBE participation of \$70,120 or 2% was all Race Conscious.

Action: Staff recommends approval of Resolution 2011-12 setting our 2011/12 over Annual Anticipated DBE Participation Level at 11.11%, of which race conscious methods apply to 8.01% and race neutral methods apply to 3.1%.

B. Meeting Package Alternatives [STECK]

Summary: Staff has been asked by the Policy Board to research alternatives to printed agenda packages. Coincidentally, Fresno COG is in the process of updating its website at www.fresnocog.org. The new website, which should be fully operational by July 1st of this year, will go a long way toward accomplishing these goals. The new web based agenda functions currently being developed, are based on Orange County Transportation Authority's, which can be viewed at http://www.octa.net/da_main.aspx. We encourage committee members to access this site and experience the functionality of the agenda viewing and download capacity.

We are also looking into the cost of providing the Policy Board members with some type of reader/tablet computers. We are considering a variety of technologies that would provide effective “reader” options. We will report out findings to the Board at their meeting on June 30th.

The meeting location was set to facilitate comments from the residents of Eastern Fresno county including: Fowler, Kingsburg, Orange Cove, Parlier, Reedley, Sanger, Selma, and the surrounding unincorporated communities. The meeting time was set for 2:00 p.m. No comments were received.

The second meeting was held in City of San Joaquin on February 17, 2011. The meeting time was 5:00 p.m. and was not part of the original schedule, but was added to coincide with a planned community dinner. No comments were received.

A third meeting was held again in the City of San Joaquin on February 23, 2011. The location was selected to facilitate comments from the residents of Western Fresno county including: Coalinga, Firebaugh, Huron, Kerman, Mendota, San Joaquin, and the surrounding unincorporated communities. The meeting was set for 2:00 p.m. No comments were received.

The final meeting was held in the City of Clovis on February 25, 2011. The meeting location was selected to facilitate comments from the residents of the Fresno-Clovis Metropolitan Area (FCMA) and surrounding unincorporated communities. The meeting time was set for 1:00 p.m. No comments were received.

We have received three comment letters regarding potential unmet needs. The first letter came from Mr. Augustine Martinez, commenting on the lack of rural service directly to the Amtrak station in Downtown Fresno. Jeff Webster, of FCRTA, informed Mr. Augustine that there is an unwritten directive that if a passenger coming into downtown, on the FCRTA system, asked the driver to go to the Amtrak station that the bus would accommodate that trip. Effective July 1, 2011, this will be officially listed in the FCRTA schedule.

The second comment came from Ms. Veronica Garibay, of California Rural Legal Assistance, Inc. (CRLA). Ms. Garibay's comments were on behalf of Community United in Lanare. CRLA's comments reference the need for bus shelters and an additional service trip at mid-day. Currently, Lanare is serviced by Coalinga Transit. Ridership is very low in Lanare and not adequate to support an additional trip or transit amenities. Each of these has a threshold or performance goal that must be obtained in order to warrant the service.

The last comment letter came from Ms. Catherine Huerta of the County of Fresno Department of Social Services. Ms. Huerta is requesting additional service to rural communities of Kerman, Coalinga, Selma, Orange Cove, Reedley, Kingsburg and Fowler. FCRTA, under the "Welfare to Work" program provided these additional services in the past. Ridership was insufficient to warrant the continuation of the service. FCRTA has recommended to the rural residents, as well as the Department of Social Services, that a more effective form of transportation would be the Fresno COG's Commuter Van Pool Program. In addition, the 2010-11 FCRTA budget allocated \$1,000,000 to purchase 35 vans, to be managed by KCAPTA, and make them available to rural residents of Fresno County. This will significantly reduce the shared expenses and should further increase participation.

After thorough review of all items, the Social Services Transportation Advisory Committee (SSTAC) found there to be no unmet transit needs that are reasonable to meet.

Action: Approval of resolution 2011-20 making the finding that there are no unmet transit needs that are reasonable to meet in Fresno County.

1. FCRTA Item: FY2011-12 Fresno County Rural Transit Agency Budget, FCRTA Resolution 2011-06 [WEBSTER]

The FCRTA Budget 45 day review process was initiated on May 13, 2011 by the TTC and ratified by the Governing Board on May 26, 2011.

G. San Joaquin Valley Railroad Study – Consultant Selection/Contract [THOMPSON]

Summary: In response to a request from the Fresno COG, Railroad Industries Inc. submitted the enclosed proposal for a study of the Westside portion of the San Joaquin Valley Railroad in Fresno County. This study will follow the same format as the previously completed study conducted for the same line on the Eastside portion of the SJV Railroad in Fresno County. The information developed from this study, in conjunction with the earlier study and a similar study completed for Tulare County, will help Fresno County understand the usefulness, and therefore importance, of the corridor and may inform potential future policy decisions regarding the corridor, not only in Fresno County but in all counties in which the San Joaquin Valley Railroad operates. Specific study tasks include the following:

- Physical inspection of the rail line to determine condition, value and problem areas.
- Interviews with existing customers to verify traffic amount, what service is needed, and estimate projected traffic.
- Develop an operating plan for the corridor and determine the economic feasibility for the operations.
- Develop all findings into an illustrated comprehensive report including all research, interview and inspection results, valuations and economics, analysis, recommendations and next steps.
- Develop the formal report into presentations to be given to the TTC/PAC and Board.

Staff recommends the retention of Railroad Industries Incorporated (Reno, Nevada) to conduct the study. They conducted the earlier study of the Eastside portion of the SJV Railroad in Fresno County and so bring an immediate familiarity with the issues facing the corridor. They are able to begin the study immediately, such that the study results and recommendations can be presented to COG Committees and Policy Board during the September/October time frame, an important consideration if there is a need to move quickly on a potential regional response to corridor developments. Work Element 151 of the 2011/12 Overall Work Program includes funding for the study.

Action: Approve the selection of and authorize the Executive Director to enter into a contract with Railroad Industries Inc. in an amount not to exceed \$30,000 to conduct a study of the Westside portion of the San Joaquin Valley Railroad Corridor in Fresno County.

VIII. TRANSPORTATION ACTION / DISCUSSION ITEMS

A. Adoption of Annual Availability Advisory Percentages for Disadvantaged Business Enterprise (DBE) Participation – Resolution 2011-12 - PUBLIC HEARING, JUNE 30, 2011 [BESHEARS]

Summary: A Caltrans Availability and Disparity Study revealed statistically significant underutilization in four of six groups presumed to be disadvantaged as defined in 49, CFR Part 26. As a result the Federal Highways Administration (FHWA) has approved the California State Department of Transportation 2009 Disadvantaged Business Enterprise Program requiring implementation of race conscious measures. Local agencies adopted the California Department of Transportation Disadvantaged Business Enterprise Program Implementation Agreement and set race conscious goals for the presumed four underutilized groups, African American, Asian Pacific American, Native American, and Women. Two other groups, Hispanic Males or Subcontinent Asian Males shall be reported and counted toward the Race Neutral portion of the local agencies overall Anticipated Annual DBE Percentage Level.

We mailed a notice to our entire consulting database advising them of the requirements and requesting updates to their DBE status. The result of their response has been tabulated and our database now has 315 companies of which one is African American, five are Asian Pacific American, sixteen are women, ten are Hispanic Male, and three are Subcontinent Asian Male reflecting an 11.11% over all Anticipated Advisory DBE Participation Level, of which race conscious groups total 8.01% and race neutral groups total 3.1%.

A public notice was put in the Fresno Bee noticing this public hearing identifying \$579,500 in contracting opportunities programmed in the 2011/12 Overall Work Program.

During the 2010/11 fiscal year we did 15 procurements totaling \$4,674,525. Overall DBE participation of \$70,120 or 2% was all Race Conscious.

Action: Staff recommends approval of Resolution 2011-12 setting our 2011/12 over Annual Anticipated DBE Participation Level at 11.11%, of which race conscious methods apply to 8.01% and race neutral methods apply to 3.1%.

B. Meeting Package Alternatives [STECK]

Summary: Staff has been asked by the Policy Board to research alternatives to printed agenda packages. Coincidentally, Fresno COG is in the process of updating its website at www.fresnocog.org. The new website, which should be fully operational by July 1st of this year, will go a long way toward accomplishing these goals. The new web based agenda functions currently being developed, are based on Orange County Transportation Authority's, which can be viewed at http://www.octa.net/da_main.aspx. We encourage committee members to access this site and experience the functionality of the agenda viewing and download capacity.

We are also looking into the cost of providing the Policy Board members with some type of reader/ tablet computers. We are considering a variety of technologies that would provide effective "reader" options. We will report out findings to the Board at their meeting on June 30th.

Action: This is an information item. Direction may be given at the discretion of the Committee.

B. VRPA – RTP Performance Standards Contract [BESHEARS]

Summary: During the 2010/11 RTP update a \$10,000 contract was authorized with VRPA to look at the protocol we use for evaluating projects in the RTP. Due to the tightness in coordinating the schedule with Interagency Coordination members, Federal Highways, Caltrans, and the 8 regional MPO's, the decision was subsequently made to postpone that discussion until the next RTP update which will kick off later this year pending the formal schedule being adopted by the Interagency Coordination group.

X. ADMINISTRATIVE ACTION / DISCUSSION ITEMS

A. Legislative Platform [GARZA]

Summary: The Policy Board adopted the 2011 Legislative Platform in November 2010. The Fresno COG Legislative Platform includes the advocacy priorities of the Fresno COG in state and federal legislative matters. It represents a unified voice when communicating legislative priorities to our state and federal lawmakers as well as to relevant state and federal agencies. It also provides guidance to the Fresno COG staff and the lobbying partners when advocating on behalf of the Policy Board. The final legislative platform reflects the most current priorities for advocacy during the 2011 state and federal legislative sessions. During recent Policy Board meetings, several board members have expressed concerns in regards to taking positions on issues or priorities that are non-transportation related. Because the approved Legislative Platform does include non-transportation related priorities, it will be necessary to amend and readopt an updated legislative platform to align with the priorities and concerns of the policy board members. During the July PAC meeting, staff will ask PAC members to voluntarily participate in subcommittee to review and update the platform in order to address the concerns involving non-transportation related action items. The platform will be updated during the months of July and August, and will go to the Policy Board in September for recommended approval.

Action: Information item. Direction may be provided at the discretion of the Committee

B. Obligational Authority [GARZA]

Summary: On April 4, 2011 Fresno COG submitted the 2010/11 Obligation Plan to Caltrans Local Assistance which outlines Fresno COG's estimated schedule for project and fund delivery for federal fiscal year (FFY) 2010/11 (October 1, 2010 through September 30, 2011). The overall total Obligational Authority (OA) for CMAQ and RSTP in FFY 10/11 would have been \$20,540,248; however, last year's OA was under delivered by \$276,480, and that amount was added to this years OA, leaving **\$20,816,729** as the projected FFY 2010/11 Obligational Authority Target. As of April 30, 2011, our region has only delivered \$2,150,939 or 10.3% of the OA Target. Our region needs to deliver the remaining \$18,665,789 of the OA to comply with the "Use It or Lose It" provisions of AB 1012 enacted in October 1999. The obligation plan submitted by the local agencies outlined the delivery of \$13,402,180 in combined CMAQ and RSTP. However, since the plan was originally submitted, Fresno COG staff has been meeting with individual project sponsors and reviewing project status and exploring the advancement of many projects through the use of EPSP. Due to financial constraint requirements of the FTIP, it is imperative that projects

programmed with FY 10/11 get obligated within the programmed year to avoid reprogramming of those funds. If funds need to be reprogrammed and financial capacity is not available, it is possible that projects can become substantially delayed if moved to the outer years of the FTIP.

Staff will provide a verbal update on the project delivery status at the meeting.

Action: Information item. Direction may be provided at the discretion of the Policy Board.

C. California Consulting - Lobbying Contract [BESHEARS]

Summary: California Consulting has represented they are amenable to extending their contract at the existing rate structure. The contract also requires us to reimburse California Consulting \$150 per quarter for filing the statutorily required Report of Lobbyist. This contract provides lobby service and is ineligible for federal participation, therefore it is paid for with member dues.

Action: Staff recommends extending the California Consulting arrangement another year at the existing terms.

D. Michael Sigala – MPO Liaison Contract [BESHEARS]

Summary: Pursuant to a \$60,000 contract shared among the MPO's Michael Sigala coordinates the valley wide agenda. We administrate that contract for the valley MPO's. Our pro rata share is \$23,640 and is included in the 2011/12 budget. In addition the Valley MPO's applied for and was awarded a \$300,000 grant to perform a Regional Goods Movement study. The Valley MPO's are also adding another \$350,000 to this project and set aside \$26,000 for Mr. Sigala to coordinate the study between the regions, therefore the total contract with Sigala will be \$126,000.
