Subject: High-speed rail construction update

Dear Prospective Team Member,

Thank you for your interest in California's high-speed rail project.

As part of the commitment to keep you informed of the planning for the statewide high-speed rail network we have included below the latest planning details about the first construction contract packages. These packages represent the start of construction on the backbone of the system, more than 100 miles long, in the Central Valley and are based on the approximately \$6 billion in funding available at this time.

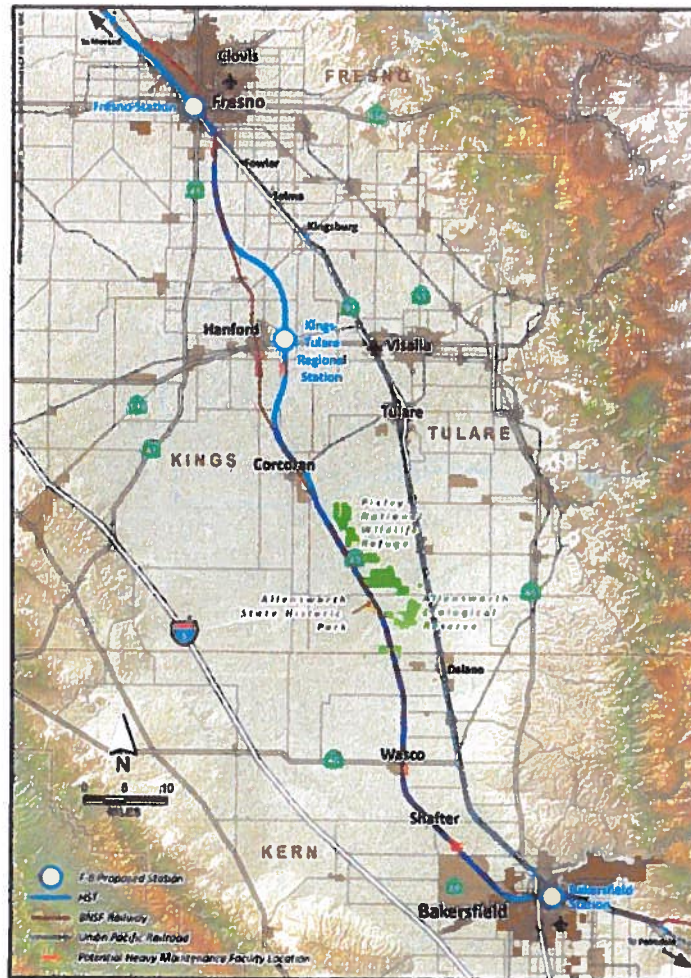

As a reminder we anticipate releasing the first request for qualifications (RFQ) within the next 90 days and then a request for proposals (RFP) in early 2012.

Additionally, we are eager to continue engaging the small business community and are planning a small business focused event in Fresno on **September 8th**. Please check our **calendar** for more details.

If you have any questions about the information below please contact Ted R. Blunck, Commercial Manager - California High-Speed Rail Project at 916-431-2932 or BlunckT@pbworld.com.

Initial construction will be divided into five (5) packages as follows:

- A large design-build contract for a section of construction running from the San Joaquin River north of Fresno south through the city of Fresno to approximately East American Way. It will be 26 to 37 miles in length depending on the final alignment selected through the environmental process, including 12 grade separations, 2 viaducts, 1 tunnel and a major river crossing over the San Joaquin River. This package will be in the \$1-2 billion range. (see graphic below)
- Smaller design-build construction packages in the \$500 million - \$1 billion range will be divided regionally as follows (see graphic below):
 - Approximately 28 miles from approximately East American Way in South Fresno south to approximately Hanford Aroma Road, including 20 grade separations and 3 viaducts.
 - Approximately 55 miles in length from approximately Hanford Aroma Road south to approximately Dresser Avenue, including 21 grade separations, one viaduct and 4 river crossings.
 - Approximately 14 miles from approximately Dresser Avenue south to approximately Allen Road, including 2 grade separations and 1 major viaduct.
- A fifth package will follow to include all of the track work for the entire length of the initial construction section.

Possible additional early initial construction contract packages:

- Early procurement of up to four architectural/engineer contracts
- Early procurement of up to six construction management contracts
- An early procurement of a design-bid-build contract for the reconstruction of Fresno Street underpass in Fresno, California
- An early procurement of a design-bid-build contract for the construction of an aerial structure over the Union Pacific Railroad in Fresno

SAN JOAQUIN VALLEY CLEAN CITIES COALITION

STAKEHOLDER MEETING

The Coalition would like to invite you to join our upcoming quarterly stakeholder meeting

THEME:

New Technology: Light-Duty Alternative Fuel Vehicles

DATE:

August 30, 2011

TIME:

9 am-10 Networking
10 - 12 Speakers and Ride & Drive
12 - 12:30 Lunch and Closing Statements

LOCATION:

San Joaquin Valley Air Pollution Control District
1990 E Gettysburg Ave | Fresno, CA 93726

SPEAKERS:

- **LPG-Todd Mouw** (VP of Sales & Marketing) & Carlos Landeros (Fleet Services Mgr) from ROUSH CleanTech
- **CNG-Robert Sessa** (Western Regional Sales Mgr) from BAF Technologies
- **CNG & EV-Paul Ryan** (GM Fleet Mgr) from General Motors
- **EV-Eileen Tutt** (Executive Director) from CA Electric Transportation Coalition
- **Funding Opportunities-SJV APCD**

- ❖ *A Ride & Drive will be available with LPG, CNG & Electric vehicles for those who want to drive an Alternative Fuel Vehicle*

The event will focus on new CARB certified alternative fueled vehicles (supported by manufacturer) for 2011.

Speakers from GM & Ford approved vendors will speak on CNG & LPG vehicles.

2011 Transportation Forum Member Agency Project Highlights

This years Transportation Forum will be held on Wednesday October 19, 2011 from 8:00 A.M. to 12:00 P.M. at the Exhibit Hall in downtown Fresno.

As part of the program we will be highlighting one major project from each of our member agencies. The projects will be showcased in a short video to be narrated by you or another agency representative.

The project your agency chooses to highlight can be proposed, currently being developed or finished and should be significant within your City or the County.

We will send you a copy of the e-mail request for project selections that will be sent to your project engineers and city managers next week. We are requesting photos and a written narrative of the project information, including a description of its benefits to your community. The deadline to submit a project will be August 31, 2011. Following the project submissions you (or your selected representative) will be contacted regarding the details for the video's audio narrative.

If you have any questions please feel free to contact Brenda Veenendaal at 559-233-4148 ext. 219 or Lindsey Monge at 559-233-4148 ext. 205.
